

EuroScience Open Forum Manchester 2016

Dear,

We contact you in our capacity as grassroots organization of researchers in Europe, to inform you that the biannual [EuroScience Open Forum](#) will be held in Manchester from 24-27 July 2016. We thought that this event could be of interest to your organization. We would be most grateful if you could share our information with your network.

Sincerely,

Dr. Peter Tindemans

EuroScience Secretary General

EuroScience, the grassroots organization of researchers in Europe: www.euroscience.org

Please find some more information here below:

Hosted in a different European city every two years, ESOF is a unique international and multidisciplinary event which presents and discusses the frontiers of scientific and technological research in Europe. Now in its seventh iteration, ESOF attracts about 5,000 delegates from across the world to the host city during the week of the conference, which, in 2016, will be held between 24 and 27 July in Manchester. ESOF is one of the best opportunities for everyone from leading scientists, early careers researchers, business people, policy makers, science and technology communicators to the general public to come together to find out more about the latest scientific breakthroughs and how science is helping us advance today. Further information about the [conference](#), the [nine core themes](#), the [speakers](#) such as Sir Andre Geim, Emmanuelle Charpentier, Fabiola Gianotti and Brian Cox, as well as how to [register](#), can be found on the ESOF website: <http://www.esof.eu>.

To help engage the widest possible audience with the excitement and potential of cutting-edge science, we ask your help in spreading the ESOF word by:

- **Sharing the information about ESOF with your members through your newsletter, on your website and on social media.**
- **[Becoming an exhibitor](#): in the ESOF 2016 exhibition space you will be right in the heart of leading science conversations with the chance to meet new business partners, some of the best science students and graduates from right across Europe as well as journalists and broadcasters who could all help to drive your organization.**
- **You may also wish to follow us on [Facebook](#), [Twitter](#) and [LinkedIn](#) to share our announcements.**

Should you have any questions, please feel free to contact the EuroScience office at magali.devrin@euroscience.org or +33 3 88 24 75 58.
