

Tom Fenchel - Publications

1. **Fenchel, T.** On *Ancistrum caudatum* sp. nov. and *Hypocomides modiolariae* Chatton and Lwoff (Ciliata, Thigmotrichida) from the lamellibranch *Musculus niger* (Gray). *Ophelia* 1: 112-120, 1964.
2. **Fenchel, T.** On the morphology, morphogenesis and systematics of *Thigmophrya* Ch.Lw. (Ciliata, Thigmotrichida) with description of *T. saxicavae* sp. n. *Acta Protozool.* 10:113-121, 1964.
3. **Fenchel, T.** *Gulmarella faurei* n.g., n.sp., a holotrichous ciliate from the intestine of lamellibranchs. *Cah.Biol.Mar.* 5:311-318, 1965.
4. **Fenchel, T.** Ciliates from Scandinavian molluscs. *Ophelia* 2. 71-174, 1965.
5. Bresciani, J & **Fenchel, T.** Studies on dicyemid Mesozoa. I. The fine structure of the adult (the nematogen and rhombogen stage). *Vidensk. Medd. fra Dansk naturh. Foren.* 128:85-92, 1965.
6. **Fenchel, T.** Feeding biology of the sea-star *Luidia sarsi* Düben and Koren. *Ophelia* 2:223-236, 1965.
7. **Fenchel, T.** On the ciliate fauna associated with the marine species of the amphipod *Gammarus* J.G.Fabricius. *Ophelia* 2:281-303, 1965.
8. **Fenchel, T.** On the ciliated protozoa inhabiting the mantle cavity of lamellibranchs. *Malacologica* 5:35-36, 1966,
9. **Fenchel, T.** & Jansson, B.-O. On the vertical distribution of the microfauna in the sediments of a brackish-water beach. *Ophelia* 3:161-177, 1966.
10. **Fenchel, T.**, Jansson, B.-O. & Thun, W.v. Vertical and horizontal distribution of the metazoan microfauna and of some physical factors in a sandy beach in the northern part of the Øresund. *Ophelia* 4:227-243, 1967.
11. Bresciani, J & **Fenchel, T.** Studies on dicyemid mesozoa II. The fine structure of the infusoriform larva. *Ophelia* 4: 1-18, 1967.
12. **Fenchel, T.** The ecology of marine microbenthos. I. The quantitative importance of ciliates as compared with metazoans in various types of sediments. *Ophelia* 4:121-137, 1967.
13. **Fenchel, T.** The ecology of marine microbenthos II. The food of marine benthic ciliates. *Ophelia* 5:73-121, 1968.

14. **Fenchel, T.** The ecology of marine microbenthos III. The reproductive potential of ciliates. *Ophelia* 5:123-136, 1968.
15. **Fenchel, T.** The ecology of marine microbenthos IV. Structure and function of the benthic ecosystem, its chemical and physical factors and the microfauna communities with special references to the ciliated protozoa. *Ophelia* 6:1-182, 1969.
16. **Fenchel, T.** On "red water" in the Isefjord (inner Danish waters) caused by the ciliate *Mesodinium rubrum*. *Ophelia* 5:245-253, 1968.
17. **Fenchel, T.** Studies on the decomposition of organic detritus derived from the turtle grass *Thalassia testudinum*. *Limnol.Oceanogr.* 15:14-20, 1970.
18. **Fenchel, T.** & Riedl, R. The sulfide system: a new biotic community underneath the oxidized layer of marine sand bottoms. *Mar.Biol.* 7:255-268, 1970.
19. **Fenchel, T.** & Straarup, B. J. Vertical distribution of photosynthetic pigments and the penetration of light in marine sediments. *Oikos* 22:172-182, 1970.
20. **Fenchel, T.** The reduction-oxidation properties of marine sediments and the vertical distribution of the microfauna. *Vie et Milieu (Suppl.)* 22:509-521, 1971.
21. **Fenchel, T.** & Lee, C.C. Studies on ciliates associated with sea ice from Antarctica. I. The nature of the fauna. *Arch.Protistenk.* 114:231-236, 1972.
22. Lee, C.C. & **Fenchel, T.** Studies on the ciliates associated with sea ice from Antarctica. II. Temperature responses and tolerances in ciliates from Antarctic, temperate and tropical habitats. *Arch.Protistenk.* 114:237-244, 1972.
23. **Fenchel, T.** Aspects of decomposer food chains in marine benthos. *Verhandl. deutsch. zool. Gesellsch.* 65 Jahresversamml., 1972.
24. Jørgensen, B.B. & **Fenchel, T.** The sulfur cycle of a marine sediment model system. *Mar.Biol.* 24:189-201, 1974.
25. **Fenchel, T.** Intrinsic rate of natural increase: the relationship with body size. *Oecologia (Berl.)* 14:317-326, 1974.
26. Barsdate, R.J., Prentki, R.T. & **Fenchel, T.** Phosphorus cycle of a model ecosystem: significance for decomposer food chains and effect of bacterial grazers. *Oikos* 25: 239-251, 1974.
27. **Fenchel, T.**, Kofoed, L.H. & Lappalainen, A. Particle size-selection of two deposit feeders:

the amphipod *Corophium volutator* and the prosobranch *Hydrobia ulvae*. *Mar.Biol.* 30:119-128, 1975.

28. Blackburn, T.H., Kleiber, P. & **Fenchel, T.** Photosynthetic sulfide oxidation in marine sediments. *Oikos* 26:103-108, 1975.

29. **Fenchel, T.** The quantitative importance of the benthic microfauna of an Arctic tundra pond. *Hydrobiologia* 46:445-464, 1975.

30. **Fenchel, T.** Factors determining the distribution patterns of mud snails (Hydrobiidae). *Oecologia (Berl.)* 20:1-17, 1975.

31. **Fenchel, T.** Character displacement and coexistence in mud snails (Hydrobiidae). *Oecologia (Berl.)* 20: 19-32, 1975.

32. **Fenchel, T.** & Kofoed, L.H. Evidence for exploitative interspecific competition in mud snails (Hydrobiidae). *Oikos* 27:367-376, 1976.

33. **Fenchel, T.** Competition, coexistence and character displacement in mud snails (Hydrobiidae). Pp 229-243 in (B.C.Coull, ed.) *Ecology of Marine Benthos*. University of South Carolina Press, Columbia, S.C., 1977.

34. **Fenchel, T.** & Harrison, P. The significance of bacterial grazing and mineral cycling for the decomposition of particulate detritus. Pp 285-299 in (J.M.Anderson and A.Macfadyen, eds) *The Role of Terrestrial and Aquatic Organisms in Decomposition Processes*. Blackwell, Oxford, 1976.

35. **Fenchel, T.** Aspects of the decomposition of seagrasses. Pp 123-145 in (C.P.McRoy and C. Helfferich, eds) *Seagrass Ecosystems*. Dekker, New York, 1977.

36. **Fenchel, T.**, Perry, T. & Thane, A. Anaerobiosis and symbiosis with bacteria in free-living ciliates. *J.Protozool.* 24:154-163, 1977.
