

## B O O K S

### BOOKS, MONOGRAPHTES

- B7 Bösze P & **Palkovits M**, *Guide to writing, editing and evaluating of scientific publications* (Hungarian text), NOK Kiadó, Budapest 2006
- B6 **Palkovits M** & Brownstein MJ, *Maps and Guide to Microdissection of the Rat Brain*, Elsevier, New York-Amsterdam-London 1988
- B5 **Palkovits M**, *Neuropeptides in the Central Nervous System* (Hungarian text), Aesculap/Medicina, Budapest 1986
- B4 Mitro A & **Palkovits M**, *Morphology of the Rat Brain Ventricles, Ependyma and Periventricular Structures*, Karger, Basel 1981
- B3 **Palkovits M**, *Guide and Map for the Isolated Removal of Individual Cell Groups from the Rat Brain* (Hungarian text), Akadémiai Kiadó, Budapest 1980
- B2 **Palkovits M** & Fischer J, *Karyometric Investigations*, Akadémiai Kiadó, Budapest 1968
- B1 **Palkovits M**, *Morphology and Function of the Subcommissural Organ*, Akadémiai Kiadó, Budapest, 1965

### EDITING

- E3 Szentágothai J, Hámori J & **Palkovits M**, *Advances in Physiological Sciences, Vol 2, Regulatory Functions of the CNS. Subsystems*, Pergamon Press-Akadémiai Kiadó, Budapest 1981
- E2 Szentágothai J, **Palkovits M** & Hámori J, *Advances in Physiological Sciences, Vol 1, Regulatory Functions of the CNS. Principles of Motion and Organization*, Pergamon Press-Akadémiai Kiadó, Budapest 1981
- E1 Gráf L, **Palkovits M** & Rónai AZ, *Endorphins '78 – International Workshop Conference, Budapest, Hungary, 2-6 October, 1978*, Akadémiai Kiadó, Budapest 1978

## PUBLICATIONS

## 2010

- 662 Poulter MO, Du L, Zhurov V, **Palkovits M**, Faludi G, Merali Z & Anisman H (2010) Altered organization of GABA<sub>A</sub> receptor mRNA expression in the depressed suicide brain, *Front Mol Neurosci* 3:3. (vol. 3, article 3, pp. 1-10) doi:10.3389/neuro.02.003.2010
- 661 Renner É, Szabó-Meltzer KI, Puskás N, Tóth ZE, Dobolyi A & **Palkovits M** (2010) Activation of neurons in the hypothalamic dorsomedial nucleus via hypothalamic projections of the nucleus of the solitary tract following refeeding of fasted rats, *Eur J Neurosci* 31: 302-314
- 660 Zhao Y, Mailloux CM, Hermes E, **Palkovits M** & Westphal H (2010) A role of the LIM-homeobox gene *Lhx2* in the regulation of pituitary development, *Dev Biol* 337: 313-323
- 659 Dobolyi A, **Palkovits M** & Usdin TB (2010) The TIP39-PTH2 receptor system: Unique peptidergic cell groups in the brainstem and their interactions with central regulatory mechanisms, *Prog Neurobiol* 90: 29-59
- 658 Durrenberger PF, Fernando S, Kashefi SN, Ferrer I, Hauw J-J, Seilhean D, Smith C, Walker R, Al-Sarraj S, Troakes C, **Palkovits M**, Kasztner M, Huitinga I, Arzberger T, Dexter DT, Kretschmar H & Reynolds R (2010) Effects of antemortem and postmortem variables on human brain mRNA quality: a BrainNet Europe study, *J Neuropathol Exp Neurol* 69: 70-81

## 2009

- 657 **Palkovits M**, Hellferich F, Dobolyi A & Usdin TB (2009) Acoustic stress activates tuberoinfundibular peptide of 39 residues neurons in the rat brain, *Brain Struct Funct* 214: 15-23
- 656 Héja L, Barabás P, Nyitrai G, Kékesi KA, Lasztóczy B, Tőke O, Tárkányi G, Madsen K, Schousboe A, Dobolyi Á, **Palkovits M** & Kardos J (2009) Glutamate uptake triggers transporter-mediated GABA release from astrocytes, *PLoS One* 4/e7153: 1-12, doi:10.1371
- 655 Bagó AG, Dimitrov E, Saunders R, Seress L, **Palkovits M**, Usdin TB & Dobolyi A (2009) Parathyroid hormone 2 receptor and its endogenous ligand tuberoinfundibular peptide of 39 residues are concentrated in endocrine, viscerosensory and auditory brain regions in macaque and human, *Neuroscience* 162: 128-147
- 654 Kvetnansky R, Sabban EL & **Palkovits M** (2009) Catecholaminergic Systems in Stress: Structural and Molecular Genetic Approaches, *Physiol Rev* 89: 535-606
- 653 **Palkovits M**, Sebekova K, Gallatz K, Boor P, Sebekova K Jr, Klassen A, Bahner U & Heidland A (2009) Neuronal activation in the CNS during different forms of acute renal failure in rats, *Neuroscience* 159: 862-882

## 2008

- 652 Mravec B, Tillinger A, Bodnar I, Nagy GM, **Palkovits M** & Kvetnansky R (2008) The response of plasma catecholamines in rats simultaneously exposed to immobilization and painful stimuli, *Ann NY Acad Sci* 1148: 196-200
- 651 Kiss A, Mravec B, **Palkovits M** & Kvetnansky R (2008) Stress-induced changes in tyrosine hydroxylase gene expression in rat hypothalamic paraventricular, periventricular, and dorsomedial nuclei, *Ann NY Acad Sci* 1148: 74-85
- 650 **Palkovits M** (2008) Stress-induced activation of neurons in the ventromedial arcuate nucleus: a blood-brain-CSF interface of the hypothalamus, *Ann NY Acad Sci* 1148: 57-63
- 649 Bratincsák A, Kovács ZI & **Palkovits M** (2008) Direct neuronal projection from a brainstem thermosensitive cell group to the preoptic thermoregulatory center, *Neuroscience* 156: 966-972

- 648 Poulter MO, Du L, Weaver ICG, **Palkovits M**, Faludi G, Merali Z, Szyf M & Anisman H (2008) GABA<sub>A</sub> receptor promoter hypermethylation in suicide brain: implications for the involvement of epigenetic processes, *Biol Psychiatry* **64**: 645-652
- 647 Varga T, **Palkovits M**, Usdin TB & Dobolyi Á (2008) The medial paralemniscal nucleus and its afferent neuronal connections in rat, *J Comp Neurol* **511**: 221-237
- 646 Kirilly E, Molnar E, Balogh B, Kantor S, Hansson SR, **Palkovits M** & Bagdy G (2008) Decrease in REM latency and changes in sleep quality parallel serotonergic damage and recovery after MDMA: a longitudinal study over 180 days, *Int J Neuropsychopharm* **11**: 795-809
- 645 Markia B, Kovács Zs.I, **Palkovits M** (2008) Projections from the vestibular nuclei to the hypothalamic paraventricular nucleus: morphological evidence for the existence of a vestibular stress pathway in the rat brain, *Brain Struct Funct* **213**: 239-245.
- 644 Brenner D, Bago AG, Gallatz K, Palkovits M, Usdin TB & Dobolyi A (2008) Tuberoinfundibular peptide of 39 residues in the embryonic and early postnatal rat brain, *J Chem Neuroanat* **36**: 59-68
- 643 Rezek Ö, Boldogkői Zs, Tombác D, Kóvágó Cs, Gerendai I, **Palkovits M** & Tóth IE (2008) Location of parotid preganglionic neurons in the inferior salivatory nucleus and their relation to the superior salivatory nucleus of rat, *Neurosci Lett* **440**: 265-269
- 642 de Mota N, Iturrioz X, Claperon C, Bodineau L, Fassot C, Roques BP, **Palkovits M** & Llorens-Cortes C (2008) Human brain aminopeptidase A: biochemical properties and distribution in brain nuclei, *J Neurochem* **106**: 416-428
- 641 Molnár T, Barabás P, Héja L, Kútiné Fekete E, Lasztóczy B, Szabó P, Nyitrai G, Simon-Trompler E, Hajós F, **Palkovits M** & Kardos J (2008) g-Hydroxybutyrate binds to the synaptic site recognizing succinate monocarboxylate: A new hypothesis on astrocyte–neuron interaction via the protonation of buccinate, *J Neurosci Res* **86**: 1566-1576
- 640 Bell JE, Alafuzoff I, Al-Sarraj S, Arzberger T, Bogdanovic N, Budka H, Dexter DT, Falkai P, Ferrer I, Gelpi E, Gentleman SM, Giaccone G, Huitinga I, Ironside JW, Klioueva N, Kovacs GG, Meyrenot D, **Palkovits M**, Parchi P, Patsuoris E, Reynolds R, Riederer P, Roggendorf W, Seilhean D, Schmitt A, Schmitz P, Streichenberger N, Schwalber A & Kretschmar H (2008) Management of a twenty-first century brain bank: experience in the BrainNet Europe consortium, *Acta Neuropathol* **115**: 497-507
- 639 **Palkovits M**, Harvey-White J, Liu J, Kovacs ZS, Bobest M, Lovas G, Bagó AG & Kunos G (2008) Regional distribution and effects of postmortal delay on endocannabinoid content of the human brain, *Neuroscience* **152**: 1032-1039
- 638 Kozicz T, Tilburg-Ouwens D, Faludi G, **Palkovits M** & Roubos E (2008) Gender-related urocortin 1 and brain-derived neurotropic factor expression in the adult human midbrain of suicide victims with major depression, *Neuroscience* **152**: 1015-1023
- 637 Anisman H, Du L, **Palkovits M**, Faludi G, Kovacs GG, Szontagh-Kishazi P, Merali Z & Poulter MO (2008) Serotonin receptor subtype and p11 mRNA expression in stress-relevant brain regions of suicide and control subjects, *J Psychiatry Neurosci* **33**: 131-141
- 636 Bagó AG, **Palkovits M**, Usdin TB, Seress L & Dobolyi Á (2008) Evidence for the expression of parathyroid hormone 2 receptor in the human brainstem, *Clin Neurosci/Idegyógy Sz* **61**: 123-126
- 635 Ludányi A, Eröss L, Czirják S, Vajda J, Halász P, Watanabe M, **Palkovits M**, Maglóczky Z, Freund TF & Katona I (2008) Downregulation of the CB<sub>1</sub> cannabinoid receptor and related molecular elements of the endocannabinoid system in epileptic human hippocampus, *J Neurosci* **28**: 2976-2990
- 634 Dobolyi Á & **Palkovits M** (2008) Expression of latent transforming growth factor beta binding proteins in the rat brain, *J Comp Neurol* **507**: 1393-1408

- 633 Tóth ZE, Zelena D, Mergl Z, Kirilly E, Várnai P, Mezey É, Makara GB & **Palkovits M** (2008) Chronic repeated restraint stress increases prolactin-releasing peptide/tyrosine hydroxylase ratio with gender-related differences in the rat brain, *J Neurochem* **104**: 653-666

## 2007

- 632 Bratincsák A, McMullen D, Miyake S, Tóth ZE, Hallenbeck JM & **Palkovits M** (2007) Spatial and temporal activation of brain regions in hibernation: *c-fos* expression during the hibernation bout in thirteen-lined ground squirrel, *J Comp Neurol* **505**: 443-458
- 631 Landgraf P, Rusu M, Sheridan R, Sewer A, Iovino N, Aravin A, Pfeffer S, Rice A, Kamphorst AO, Landthaler M, Lin C, Succi ND, Hemida L, Fulci V, Chiaretti S, Foa R, Schliwka J, Fuchs U, Novosel A, Müller R-M, Schermer B, Bissels U, Inman J, Phan Q, Chien M, Weir DB, Choksi R, De Vita G, Frezzetti D, Trompeter H-I, Hornung V, Teng G, Hartmann G, **Palkovits M**, Di Lauro R, Wernet P, Macino G, Rogler CE, Nagle JW, Ju J, Papavasiliou FN, Benzing T, Lichter P, Tam W, Brownstein MJ, Bosio A, Borkhardt A, Russo JJ, Sander C, Zavolan M & Tuschl T (2007) A mammalian microRNA expression atlas based on small RNA library sequencing, *Cell* **129**: 1401-1414
- 630 Mravec B, Bodnár I, Tillinger A, Uherezky G, Kvetnansky R, **Palkovits M** & Nagy GM (2007) Prolactin response to formalin is related to the acute nociceptive response and it is attenuated by combined application of different stressors, *Neuroendocrinology* **86**: 69-76
- 629 Agoston DV, Szemes M, Dobi A, **Palkovits M**, Georgopoulos K, Gyorgy A & Ring MA (2007) Ikaros is expressed in developing striatal neurons and involved in enkephalinergic differentiation, *J Neurochem* **102**: 1805-1816
- 628 Tóth J, Siklódi E, Medveczky P, Gallatz K, Németh P, Szilágyi L, Gráf L & **Palkovits M** (2007) Regional distribution of human trypsinogen 4 in human brain at mRNA and protein level, *Neurochem Res* **32**: 1423-1433
- 627 Mravec B, Lukackova R, Bodnar I, Kiss A, Pacak K, **Palkovits M** & Kvetnansky R (2007) Stress-induced alterations in catecholamine enzymes gene expression in the hypothalamic dorsomedial nucleus are modulated by caudal brain and not hypothalamic paraventricular nucleus neurons, *Brain Res Bull* **74**: 147-154
- 626 Kovács Zs, Puskás L, Nyitrai G, Papp E, Császár I, Juhász G & **Palkovits M** (2007) Suppression of spike-wave discharge activity and *c-fos* expression by 2-methyl-4-oxo-3H-quinazoline-3acetyl piperidine (Q5) *in vivo*, *Neurosci Lett* **423**: 73-77
- 625 **Palkovits M**, Deli MA, Gallatz K, Tóth ZsE, Buzás E & Falus A (2007) Highly activated *c-fos* expression in specific brain regions (ependyma, circumventricular organs, choroid plexus) of histidine decarboxylase deficient mice in response to formalin-induced acute pain, *Neuropharmacology* **53**:101-112
- 624 Shahar T & **Palkovits M** (2007) Cross over of forebrain and brainstem neuronal projections to spinal cord sympathetic preganglionic neurons in the rat, *Stress* **10**:145-152
- 623 Schmitt A, Bauer M, Heinsen H, Feiden W, Falkai P, Alafuzoff I, Arzberger T, Al-Sarraj S, Bell JE, Bogdanovic N, Brück W, Budka H, Ferrer I, Giaccone G, Kovacs GG, Meyronet D, **Palkovits M**, Parchi P, Patsouris E, Ravid R, Reynolds R, Riederer P, Roggendorf W, Schwalber A, Seilhean D & Kretschmar H (2007) How a neuropsychiatric brain bank should be run: a consensus paper of Brainnet Europa II, *J Neural Transm* **114**:527-537
- 622 Németh AL, Medveczky P, Tóth J, Siklódi E, Schlett K, Patthy A, **Palkovits M**, Ovádi J, Tökési N, Németh P, Szilágyi L & Gráf L (2007) Unconventional translation initiation of human trypsinogen 4 at a CUG codon with an N-terminal leucine. A possible means to regulate gene expression, *FEBS Journal* **274**:1610-1620
- 621 Kovacs GG, Ando RD, Adori C, Kirilly E, Benedek A, **Palkovits M** & Bagdy G (2007) Single dose of MDMA causes extensive decrement of serotonergic fibre density without blockage of the fast axonal transport in Dark Agouti rat brain and spinal cord, *Neuropathol Appl Neurobiol* **33**:193-203
- 620 Molnár T, Kútiné Fekete E, Kardos J & **Palkovits M** (2007) Characterization of specific succinate binding site in brain synaptic membranes, *Clin Neurosci/Idegyógy Sz* **60**:201-204
- 619 Bahner U, Geiger H, **Palkovits M**, Lenkei Zs, Luft FC & Heidland A (2007) Central atrial natriuretic peptide in

dehydration, *Clin Neurosci/Idegyógy Sz* 60:130-135

- 618 Fodor M, Rostene W, Berod A, Bencze V & **Palkovits M** (2007) Projections of VIP/PHI neurons of the interstitial nucleus of Cajal in the rat, *Clin Neurosci/Idegyógy Sz* 60:89-93
- 617 Fodor M, **Palkovits M** & Gallatz K (2007) Fine structure of the area subpostrema in rat. Open gate for the medullary autonomic centers, *Clin Neurosci/Idegyógy Sz* 60:83-88
- 616 Gallatz K, Medveczky P, Németh P, Szilágyi L, Gráf L & **Palkovits M** (2007) Human trypsin(ogen) 4-like immunoreactivity in the white matter of the cerebral cortex and the spinal cord, *Clin Neurosci/Idegyógy Sz* 60:118-123
- 615 Fodor M, Makara GB & **Palkovits M** (2007) Pituitary atrial natriuretic peptide of paraventricular nucleus origin, *Clin Neurosci/Idegyógy Sz* 60:94-96
- 614 Hansen A, Chen Y, Inman JM, Phan QN, Qi Z-Q, Xiang CC, **Palkovits M**, Cherman N, Kuznetsov SA, Robey PG, Mezey E & Brownsstein MJ (2007) Sensitive and specific method for detecting G protein-coupled receptor mRNAs, *Nature Methods* 4:35-37
- 613 Gaszner B, Korosi A, **Palkovits M**, Roubos EW & Kozicz T (2007) Neuropeptide Y activates urocortin 1 neurons in the nonpreganglionic Edinger-Westphal nucleus, *J Comp Neurol* 500:708-719

## 2006

- 612 Young WS, Li J, Wersinger SR & **Palkovits M** (2006) The vasopressin 1b receptor is prominent in the hippocampal area CA2 where it is unaffected by restraint stress or adrenalectomy, *Neuroscience* 143: 1031-1039
- 611 Kékesi KA, Kovács Zs, Szilágyi N, Bobest M, Szikra T, Dobolyi Á, Juhász G & **Palkovits M** (2006) Concentration of nucleosides and related compounds in cerebral and cerebellar cortical areas and white matter of the human brain, *Cell Mol Neurobiol* 26: 833-844
- 610 Dénes Á, Boldogkői Zs, Hornyák Á, **Palkovits M** & Kovács KJ (2006) Attenuated pseudorabies virus-evoked rapid innate immune response in the rat brain, *J Neuroimmunology* 180:88-103
- 609 Lee H-J, **Palkovits M** & Young WS III (2006) miR-7b, a microRNA up-regulated in the hypothalamus after chronic hyperosmolar stimulation, inhibits Fos translation, *Proc Natl Acad Sci USA* 103:15669-15674
- 608 Dobi A, Szemes M, Lee C, **Palkovits M**, Lim F, Gyorgy A, Mahan MA & Agoston DV (2006) AUF1 is expressed in the developing brain, binds to AT-rich double-stranded DNA, and regulates enkephalin gene expression, *J Biol Chem* 281:28889-28900
- 607 **Palkovits M** (2006) Systematic scientometry - ethical and practical guides for scientific publications (Hungarian text), *Magyar Orvosi Nyelv* 5:13-34
- 606 Molnár T, Kútiné Fekete E, Kardos J, Simon-Trompler E, **Palkovits M** & Emri Zs (2006) Metabolic GHB precursor succinate binds to Y-hydroxybutyrate receptors: Characterization of human basal ganglia areas *nucleus accumbens* and *globus pallidus*, *J Neurosci Res* 84:27-36
- 605 Dwivedi Y, Mondal AC, Rizavi HS, Faludi G, **Palkovits M**, Sarosi A, Conley RR & Pandey GN (2006) Differential and brain region-specific regulation of Rap-1 and Epac in depressed suicide victims, *Arch Gen Psychiatry* 63:639-648
- 604 Myslivecek J, Nováková M, **Palkovits M**, Krizanova O & Kvetnansky R (2006) Distribution of mRNA and binding sites of adrenoceptors and muscarinic receptors in the rat heart, *Life Sci* 79:112-120
- 603 Tóth IE, Tóth DE, Boldogkői Zs, Hornyák Á, **Palkovits M** & Blessing WW (2006) Serotonin-synthesizing neurons in the rostral medullary raphé/parapyramidal region transneuronally labeled after injection of pseudorabies virus into the rat tail, *Neurochem Res* 31:277-286

- 602 Pandey GN, Dwivedi Y, Ren Y, Rizavi HS, Faludi G, Sarosi A & **Palkovits M** (2006) Regional distribution and relatively abundance of serotonin<sub>2c</sub> receptors in human brain: Effect of suicide, *Neurochem Res* 31:167-176
- 601 Wang J, **Palkovits M**, Usdin TB & Dobolyi A (2006) Forebrain projections of tuberoinfundibular peptide of 39 residues (TIP39)-containing subparafascicular neurons, *Neuroscience* 138:1245-1263
- 600 Merali Z, Kent M, Du L, Hrdina P, **Palkovits M**, Faludi G, Poulter MO, Bédard T & Anisman H (2006) Corticotropin-releasing hormone, arginine vasopressin, gastrin-releasing peptide, and neuromedin B alteration in stress-relevant brain regions of suicides and control subjects, *Biol Psychiatry* 59:594-602
- 599 Wang J, **Palkovits M**, Usdin TB & Dobolyi A (2006) Afferent connections of the subparafascicular area in rat, *Neuroscience* 138:197-220
- 598 Slavikova J, Dvorakova M, Reischig J, **Palkovits M**, Ondrias K, Tarabova B, Lacinova L, Kvetnansky R, Marks A & Krizanova O (2006) IP<sub>3</sub> type 1 receptors in the heart: Their predominance in atrial walls with ganglion cells, *Life Sci* 78:1598-1602

## BOOK CHAPTERS

### 2009

- C80 **Palkovits M** (2009) Evaluation of publication activity in science, scientrometry (Hungarian text), In *A magyar orvosi nyelv tankönyve*, P Bősze (ed), Chapter 19, pp 241-250, Medicina, Budapest
- C79 **Palkovits M** (2009) Scientific publications: standpoints and ethical view points (Hungarian text), In *A magyar orvosi nyelv tankönyve*, P Bősze (ed), Chapter 16, pp 215-224, Medicina, Budapest
- C78 **Palkovits M** (2009) Searching in the medical bibliography: relevance of libraries and the internet (Hungarian text), In *A magyar orvosi nyelv tankönyve*, P Bősze (ed), Chapter 15, pp 209-214, Medicina, Budapest
- C77 **Palkovits M** (2009) Sympathoadrenal system: Neural arm of the stress response, In *Encyclopedia of Neuroscience*, L.R. Squire (ed), pp 679-684, Academic Press, Oxford

### 2006

- C76 Mitro A, Gallatz K, Daxnerova Z, Novak M & **Palkovits M** (2006) Ependyma of the central canal in rats (Slovakian text), In *Morfologia v súčasnosti*, S Polak, S Pospisilova & V Varga (eds), pp 244-252, Univerzita Komenskeho, Bratislava

### 2004

- C75 **Palkovits M** (2004) The anatomy of the pain (Hungarian text), In *A fájdalomcsillapítás gyakorlati kérdései*, J Kismarton & A Vasváry (eds), Chapt 2, pp 21-28, Magyar Rákellenes Liga, Budapest

### 2002

- C74 **Palkovits M** (2002) Peptidergic transmitter systems. In *Biological Psychiatry*, HD D'Haenen, JA den Boer, P Willner (eds), Chapter VI, pp 85-95, John Wiley & Sons, Chichester
- C73 **Palkovits M** (2002) Pain and stress: convergence and divergence of neuronal pathways, In *Stress. Neural, Endocrine and Molecular Studies*, R McCarty, G Aguilera, EL Sabban & R Kvetňanský (eds), Chapt 4, pp 25-32, Taylor & Francis, London-New York
- C72 **Palkovits M** (2002) Stress-related central neuronal regulatory circuits. In *Stress. Neural, Endocrine and Molecular Studies*, R McCarty, G Aguilera EL Sabban & R Kvetňanský (eds), Chapt 1, pp 1-11, Taylor & Francis, London and New York

### 2001

- C71 Hunyady B, Mezey É & **Palkovits M** (2001) Gastrointestinal immunology: cell types in the lamina propria. A morphological review. In *Gastrointestinal Immunology*, A Pár, I Rácz & Gy Mózsik (eds), pp 23-46, Akadémiai Kiadó, Budapest
- C70 **Palkovits M** (2001) Neuroanatomy and psychic functions (Hungarian text), In *Behavioral Sciences*, B Buda, M Kopp & E Nagy (eds), Chapt 3, pp 49-63, Medicina Könyvkiadó, Budapest

### 1999

- C69 **Palkovits M** (1999) Brain pathways – Neuronal networks (Hungarian text), *Inaugural Lecture of the Hungarian Academy of Sciences*, Budapest, pp 1-18, Akadémiai Kiadó, Budapest
- C68 **Palkovits M** (1999) Micro- and macroscopic structure, innervation, and vasculature of the hypothalamus, In *Neuroendocrinology in Physiology and Medicine*, PM Conn & ME Freeman (eds), pp 23-40, Humana Press, Totowa, New Jersey

## 1997

- C67 **Palkovits M** (1997) Neurotransmitters in neuronal pathways of the central nervous system in human (Hungarian text), In *Human Pharmacology*, ES Vizi (ed), pp 137-151, Medicina, Budapest
- C66 Hunyady B, Mezey É, Pacak K, Harta Gy & **Palkovits M** (1997) Distribution of muscarinic receptor mRNAs in the stomachs of normal or immobilized rats, In *Biochemical Pharmacology as an Approach to Gastrointestinal Disorders. Basic science to clinical perspectives*, TS Gaginella, Gy Mózsik & KD Rainsford (eds), pp 171-185, Kluwer Acad Publ, Dordrecht-Boston-London

## 1996

- C65 Baffi J, Pacak K, Szabo S & **Palkovits M** (1996) Different stressors have different effects on *c-fos* activity of catecholaminergic neurons, In *Stress: Molecular Genetic and Neurological Advances*, R McCarty, G Aguilera, E Sabban & R Kvetnansky (eds), pp 143-155, Gordon Breach, New York
- C64 Pacak K, Makino S, **Palkovits M**, Kvetnansky R, Kopin IJ & Goldstein DS (1996) Immobilization-induced norepinephrine release in the paraventricular nucleus and the central nucleus of the amygdala: association with corticotropin-releasing hormone gene expression, In *Stress: Molecular Genetic and Neurobiological Advances*, R McCarty, G Aguilera, E Sabban & R Kvetnansky (eds), pp 49-66, Gordon and Breach, New York
- C63 **Palkovits M**, Dvori S, Pacak K & Baffi J (1996) Stress-induced functional activity in neuronal cells of catecholaminergic hypothalamic and amygdaloid nuclei, In *Stress: Molecular Genetic and Neurobiological Advances*, R McCarty, G Aguilera, E Sabban & R Kvetnansky (eds), pp 23-47, Gordon and Breach Sci, New York
- C62 **Palkovits M** (1996) Stereotaxic map, cytoarchitectonic and neurochemical summary of the hypothalamic nuclei, rat, In *Endocrine System*, 2nd edition, TC Jones, CC Capen, U Mohr *et al.* (eds), pp 121-167, Springer, New York

## 1995

- C61 **Palkovits M** & Fodor M (1995) Distribution of neuropeptides in the human lower brain stem (pons and medulla oblongata), In *Neurotransmitters in the Human Brain*, DJ Tracey, G Paxinos & J Stone (eds), pp 101-113, Plenum Press, New York

## 1992

- C60 **Palkovits M**, Mezey E, Csiffary A, Antoni FA, Vale W & Eskay RL (1992) Chemical neuroanatomy of brain structures involved in the stress response with special reference to corticotropin releasing factor, In *Stress, Neuroendocrine and Molecular Approaches*, Vol 1, R Kvetnansky, R McCarty & J Axelrod (eds), pp 3-13, Gordon & Breach Sci Publ, Philadelphia
- C59 **Palkovits M**, Bahner U, Geiger H, Fodor M, Lenkei Zs & Heidland A (1992) Atrial natriuretic factor in the subfornical organ and the organum vasculosum laminae terminalis, In *Progress in Brain Research*, Vol 91, A Ermisch, R Landgraf & H-J Rühle (eds), Chapt 34, pp 251-259, Elsevier, Amsterdam-New York-Oxford
- C58 **Palkovits M** (1992) Peptidergic neurotransmitters in the endocrine hypothalamus, In *Functional Anatomy of the Neuroendocrine Hypothalamus* (CIBA Foundation Symposium 168), pp 3-15, Wiley, Chichester

## 1991

- C57 **Palkovits M** (1991) Neuropeptides in central baroreceptor reflex pathways, In *Central Neural Mechanisms in Cardiovascular Regulation*, G Kunos & J Ciriello (eds), Chapt 12, pp 153-164, Birkhäuser, Boston-Basel-Berlin

## 1990

- C56 **Palkovits M**, Banay-Schwartz M & Lajtha A (1990) Taurine levels in brain nuclei of young adult and aging rats, In *Prog Clin Biol Res*, Vol 351, *Taurine: Functional Neurochemistry, Physiology, and Cardiology*, H Pasantes-Morales, DL Martin, W Shain & R Martin del Rio (eds), pp 45-51, Wiley-Liss, Inc, New York & Chichester

## 1989

- C55 **Palkovits M** (1989) Neuropeptides and peptidergic transmission in the nucleus of the solitary tract: their role in the cardiovascular regulation, In *Hypertension, Brain Catecholamines and Peptides*, FP Nijkamp & D de Wied (eds), Chapt 12, pp 72-82, Elsevier, Amsterdam
- C54 **Palkovits M** (1989) Microdissection in combination with biochemical microassays as a tool in tract tracing, In *Neuronal Tract-Tracing Methods, Vol 2: Recent Progress*, L Heimer & L Záborszky (eds), Chapt 11, pp 299-310, Plenum Press, New York-London
- C53 **Palkovits M** (1989) Neurotransmitters (Hungarian text), In *Részletes Pszichiatria*, Vol 1, B Pethő (ed), Chapt 4.1, pp 304-312, Magyar Pszichiátriai Társaság, Budapest
- C52 **Palkovits M** (1989) Neuroanatomical overview of brain neurotransmitters in stress, In *Stress: Neurochemical and Humoral Mechanisms*, GR Van Loon, R Kvetnansky, R McCarty & J Axelrod (eds), Vol 1, pp 31-42, Gordon & Breach Sci Publ, New York
- C51 **Palkovits M** & Brownstein MJ (1989) Catecholamines in the central nervous system, In *Handbook of Experimental Pharmacology, Vol 90/II, Catecholamines II*, U Trendelenburg & N Weiner (eds), Chapt 10, pp 1-26, Springer, Berlin
- C50 **Palkovits M** (1989) Punch sampling biopsy technique, In *Neuroendocrine Peptide Methodology*, PM Conn (ed), pp 871-879, Academic Press Inc, San Diego & New York

## 1988

- C49 **Palkovits M** (1988) Neuronal circuits in central baroreceptor mechanisms, In *Progress in Hypertension*, Vol I, H Saito, H Parvez, S Parvez & T Nagatsu (eds), pp 387-409, VSP Press, Zeist
- C48 **Palkovits M** (1988) Distribution of neuropeptides in brain: A review of biochemical and immunohistochemical studies, In *Peptide Hormones: Effects and Mechanisms of Action, Vol I: Neural Distribution of Brain Peptides and Changes during Aging*, A Negro-Vilar & PM Conn (eds), Chapt 1, pp 3-67, CRC Press, Inc, Boca Raton
- C47 **Palkovits M** (1988) Anatomical organization and chemical character of hypothalamic neuronal circuits: projections and afferent connections of LH-RH-containing neurons in the rat, In *The Brain and Female Reproductive Function*, AR Genazzani, U Montemagno, C Nappi & F Petraglia (eds), Chapt 1, pp 3-9, The Parthenon Publ Group, Carnforth & Park Ridge
- C46 Hökfelt T, Foster GA, Johansson O, Schultzberg M, Holets V, Ju G, Skagerberg G, **Palkovits M**, Skirboll L, Stolk JM, U'Prichard DC & Goldstein M (1988) Central phenylethanolamine-N-methyltransferase-immunoreactive neurons: Distribution, projections, fine structure, ontogeny, and coexisting peptides, In *Epinephrine in the Nervous System, Part II: Morphology of Brain Epinephrine System*, JM Stolk, DC U'Prichard & K Fuxe (eds), Chapt 3, pp 10-32, Oxford Univ Press, New York-Oxford

## 1987

- C45 **Palkovits M** (1987) Summary of structural and functional aspects of the circumventricular organs, In *Circumventricular Organs and Body Fluids*, Vol 2, PM Gross (ed), Chapt 9, pp 209-218, CRC Press, Boca Raton
- C44 **Palkovits M** (1987) Chemical nature of brain stem neuronal pathways (Hungarian text), In *Basic Neurochemistry* Chapt 2, K Magyar & ES Vizi (eds), pp 32-52, Medicina, Budapest
- C43 **Palkovits M** (1987) Neuroanatomical techniques: Progress in 1983-1985, In *Brain Peptides Update*, Vol 1, JB Martin, MJ Brownstein & DT Krieger (eds), Chapt 6, pp 69-80, John Wiley & Sons, Chichester
- C42 **Palkovits M** (1987) Neuropeptides in the median eminence of the rat, In *Integrative Neuroendocrinology: Molecular, Cellular and Clinical Aspects*, SM McCann & RI Weiner (eds), pp 35-45, Karger, Basel

- C41 **Palkovits M** (1987) Organization of the stress response at the anatomical level, In *Progress in Brain Research*, Vol 72: *Neuropeptides and Brain Function*, ER De Kloet, VM Wiegant & D de Wied (eds), pp 47-55, Elsevier, Amsterdam-New York-Oxford

#### 1986

- C40 **Palkovits M** (1986) Afferents onto neuroendocrine cells, In *Current Topics in Neuroendocrinology*, Vol 7, D Ganten & D Pfaff (eds), pp 197-222, Springer-Verlag, Berlin-Heidelberg-New York
- C39 De Kloet ER, **Palkovits M** & Mezey É (1986) Opioid peptides: Localization, source and avenues of transport, In *Neuropeptides and Behavior*, Vol I, *CNS Effects of ACTH, MSH and Opioid Peptides*, D de Wied, WH Gispen & Tj B van Wimersma Greidanus (eds), Chapt 1, pp 1-41, Pergamon Press, Oxford-New York

#### 1985

- C38 **Palkovits M** (1985) Microdissection of individual brain nuclei and areas, In *Neuromethods*, Vol 1, *General Neurochemical Techniques*, AA Boulton & GB Baker (eds), Chapt 1, pp 1-17, Humana Press, Clifton (New Jersey)
- C37 **Palkovits M** & Brownstein MJ (1985) Distribution of neuropeptides in the central nervous system using biochemical micromethods, In *Handbook of Chemical Neuroanatomy*, A Björklund & T Hökfelt (eds), Vol 4: *GABA and Neuropeptides in the CNS*, Part I, Chapt 1, pp 1-71, Elsevier, Amsterdam-New York-Oxford

#### 1984

- C36 Brownstein MJ & **Palkovits M** (1984) Catecholamines, serotonin, acetylcholine, and  $\gamma$ -amino-butyric acid in the rat brain: biochemical studies, In *Handbook of Chemical Neuroanatomy*, A Björklund & T Hökfelt (eds), Vol 2: *Classical Transmitters in the CNS*, Part I, Chapt II, pp 23-54, Elsevier, Amsterdam-New York-Oxford
- C35 Beinfeld MC & **Palkovits M** (1984) Our current understanding of the distribution and neuronal connections of cholecystikinin in the central nervous system, In *Cholecystikinin (CCK) in the Nervous System*, J de Belleruche & GJ Dockray (eds), Chapt 3, pp 42-58, Ellis Horwood, Chichester & Verlag Chemie, Weinheim
- C34 **Palkovits M** (1984) Topography of chemically identified neurons in the central nervous system: Progress in 1981-1983, In *Neuroendocrine Perspectives*, Vol 3, EE Müller & RM MacLeod (eds), pp 1-69, Elsevier, Amsterdam-New York-Oxford
- C33 **Palkovits M** (1984) Neuropeptides in the central regulation of blood pressure, In *Topics in Pathophysiology of Hypertension*, H Villarreal & MP Sambhi (eds), pp 282-290, Martinus Nijhoff Publ, Boston

#### 1983

- C32 **Palkovits M** (1983) Punch sampling biopsy technique, In *Methods in Enzymology*, Vol 103, *Hormone Action*, PM Conn (ed), Part H: *Neuroendocrine Peptides*, Chapt 23, pp 368-376, Academic Press, New York & London
- C31 **Palkovits M** (1983) Stereotaxic map, cytoarchitectonic and neurochemical summary of the hypothalamic nuclei, rat. In *Endocrine System. Monographs on Pathology of Laboratory Animals*, TC Jones, U Mohr & RD Hunt (eds), pp 316-330, Springer-Verlag, Berlin
- C30 **Palkovits M** (1983) Neuroanatomical techniques, In *Brain Peptides*, DT Krieger, MJ Brownstein & J Martin (eds), Chapt 22, pp 495-545, John Wiley & Sons, Chichester
- C29 **Palkovits M** & Brownstein MJ (1983) Locus coeruleus, In *Advances in Cellular Neurobiology*, Vol 4, S Fedoroff & L Hertz (eds), pp 81-103, Academic Press, New York & London
- C28 **Palkovits M** & Brownstein MJ (1983) Microdissection of brain areas by the punch technique, In *Brain Microdissection Techniques*, AC Cuello (ed), Chapt 1, pp 1-36, John Wiley & Sons, Chichester

- C27 **Palkovits M** & Brownstein MJ (1983) Extrahypothalamic distribution and action of hypothalamic hormones, In *Handbook of Psychopharmacology*, Vol 16, *Neuropeptides*, L Iversen, SD Iversen & SH Snyder (eds), Chapt 7, pp 467-487, Plenum Press, New York & London

#### 1982

- C26 **Palkovits M** (1982) Recent data on neuropeptide mapping in the central nervous system, In *Hormonally Active Brain Peptides*, KW McKerns & V Pantic (eds), Chapt 14, pp 279-306, Plenum Press, New York & London

#### 1981

- C25 **Palkovits M** (1981) Neuropeptides and biogenic amines in central cardiovascular control mechanisms, In *Central Nervous System Mechanisms in Hypertension*, JP Buckley & CM Ferrario (eds), pp 73-87, Raven Press, New York

#### 1980

- C24 **Palkovits M** (1980) Somatostatin in the central nervous system (A review), In *Peptides and Brain Function*, M Karasek & M Pawlikowski (eds), pp 11-25, Ann Acad Med Lodzensis, Łódź
- C23 **Palkovits M** (1980) Functional anatomy of the "endocrine" brain, In *The Endocrine Functions of the Brain*, M Motta (ed), Chapt 1, pp 1-19, Raven Press, New York
- C22 Makara GB, **Palkovits M** & Szentágothai J (1980) The endocrine hypothalamus and the hormonal response to stress, In *Selye's Guide to Stress Research*, Vol 1, H Selye (ed), Chapt 12, pp 280-337, Van Nostrand Reinhold, New York
- C21 **Palkovits M** (1980) Neuropeptides and neurotransmitters in the median eminence, In *Modulation of Neurochemical Transmission*, ES Vizi (ed), pp 75-85, Pergamon Press-Akadémiai Kiadó, Budapest
- C20 **Palkovits M** (1980) Plasticity of neurohumoral regulation, In *Psychoneuroendocrinology*, F Brambilla, G Racagni & D de Wied (eds), pp 15-24, Elsevier/North-Holland, Amsterdam-New York-Oxford
- C19 **Palkovits M** (1980) The anatomy of central cardiovascular neurons, In *Central Adrenaline Neurons*, Wenner-Green Center, Int Symp Series, Vol 33, K Fuxe, M Goldstein, B Hökfelt & T Hökfelt (eds), pp 3-17, Pergamon Press, Oxford-New York
- C18 **Palkovits M** (1980) Mapping of neurotransmitters and hypothalamic hormones, In *Neuroactive Drugs in Endocrinology*, EE Müller (ed), pp 35-48, Elsevier/North-Holland Biomedical Press, Amsterdam

#### 1979

- C17 **Palkovits M** & Záborszky L (1979) Neural connections of the hypothalamus, In *Handbook of the Hypothalamus*, Vol 1, *Anatomy of the Hypothalamus*, PJ Morgane & J Panksepp (eds), Chapt 6, pp 379-509, Marcel Dekker, New York & Basel
- C16 Ambach G & **Palkovits M** (1979) The blood supply of the hypothalamus in the rat, In *Handbook of the Hypothalamus*, Vol 1, *Anatomy of the Hypothalamus*, PJ Morgane & J Panksepp (eds), Chapt 5, pp 267-377, Marcel Dekker, New York & Basel
- C15 **Palkovits M** (1979) Changes in brain amines during stress, In *Interaction within the Brain-Pituitary-Adrenocortical System*, MT Jones, B Gillham, MF Dallman & S Chattopadhyay (eds), Chapt 9, pp 87-95, Academic Press, London & New York
- C14 **Palkovits M** (1979) Dopamine levels of individual brain regions: Biochemical aspects of distribution in the central nervous system, In *The Neurobiology of Dopamine*, AS Horn, J Korf & BHC Westerink (eds), Chapt 21, pp 343-356, Academic Press, London-New York-San Francisco
- C13 **Palkovits M**, Mezey É & Záborszky L (1979) Neuroanatomical evidences for direct neural connections between the brain stem baroreceptor centers and the forebrain areas involved in the neural regulation of the blood pressure, In *Nervous System and Hypertension*, P Meyer & H Schmitt (eds), pp 18-30, Wiley-Flammarion, Paris

## 1978

- C12 **Palkovits M**, Gráf L, Hermann I, Borvendég J, Ács Zs & Láng T (1978) Regional distribution of enkephalins, endorphins and ACTH in the central nervous system of rats determined by radioimmunoassay, In *Endorphins '78*, L Gráf, M Palkovits & AZ Rónai (eds), pp 187-195, Akadémiai Kiadó, Budapest
- C11 Borvendég J, Gráf L, Hermann I, **Palkovits M** & Merétey K (1978) Radioimmunoassay of  $\beta$ -endorphin: immunoreactive substances in the brain and the pituitary, In *Endorphins '78*, L Gráf, M Palkovits & AZ Rónai (eds), pp 177-186, Akadémiai Kiadó, Budapest
- C10 **Palkovits M** & Brownstein MJ (1978) Concentrations of the neurotransmitters in the supraoptic and paraventricular nuclei of the rat, In *Neurosecretion and Neuroendocrine Activity. Evolution, Structure and Function*, W Bargmann, A Oksche, A Polenov & B Scharer (eds), pp 250-255, Springer Verlag, Berlin-Heidelberg-New York
- C9 **Palkovits M**, Mezey É, Ambach G & Kivovics P (1978) Neural and vascular connections between the organum vasculosum laminae terminalis and preoptic nuclei, In *Brain-Endocrine Interaction III., Neural Hormones and Reproduction*, DE Scott, GP Kozlowski & A Weindl (eds), pp 302-312, Karger, Basel
- C8 **Palkovits M** (1978) Regional distribution of neurohormones in the central nervous system, In *Cell Biology of Hypothalamic Neurosecretion*, J-D Vincent & C Kordon (eds), Chapt 20, pp 339-356, CNRS, Paris

## 1977

- C7 **Palkovits M** (1977) Serotonin in the rhinencephalon, In *Rhinencéphale Neurotransmetteurs et Psychoses*, Symp Bel-Air V, 1976, pp 115-133, Georg & Co, Geneve
- C6 **Palkovits M** (1977) Transmitters of the suprainfundibular system, In *Advances in Biochemical Psychopharmacology*, Vol 16: *Nonstriatal Dopaminergic Neurons*, E Costa & GL Gessa (eds), pp 71-78, Raven Press, New York

## 1976

- C5 **Palkovits M** (1976) Biogenic amine concentrations in different brain nuclei, In *SIF Cells. Structure and Function of the Small, Intensely Fluorescent Sympathetic Cells*, O Eränkő (ed), Chapt 20, pp 257-260, Fogarty Internat Cent, No 30, Washington

## 1975

- C4 **Palkovits M** (1975) Isolated removal of hypothalamic nuclei for neuroendocrinological and neurochemical studies, In *Anatomical Neuroendocrinology*, ME Stumpf & LD Grant (eds), pp 72-80, Karger, Basel

## 1962

- C3 Inke G & **Palkovits M** (1962) Morphological techniques for investigating of the circulation in the legs of experimental animals (Hungarian text), In *Methods of the Experimental Medicine*, Vol 6, A Kovách (ed), Chapt 3, pp 1017-1033, Akadémiai Kiadó, Budapest
- C2 Inke G & **Palkovits M** (1962) Morphology of the abdominal aorta in experimental animals (Hungarian text), In *Methods of the Experimental Medicine*, Vol 6, A Kovách (ed), Chapt 3/3, pp 1000-1007, Akadémiai Kiadó, Budapest
- C1 Inke G & **Palkovits M** (1962) Cerebral blood vessels of experimental animals (Hungarian text), In *Methods of the Experimental Medicine*, Vol 6, A Kovách (ed), Chapt 3/1, pp 973-989, Akadémiai Kiadó, Budapest

## ABSTRACTS
