

## **Selected list of publications – Lieven Verschaffel – March 2013**

**A1 Papers in journals included in the ISI Web of Science – limited to the following types:  
papers review articles, letters and notes (Chronological order)**

### **In press**

Acevedo Nistal, A., Van Dooren, W., & Verschaffel, L. (in press). Students' reported justifications for their representational choices in linear-function problems: An interview study. *Educational Studies*. (IF most recent : 0.35).

Acevedo Nistal, A., Van Dooren, W., & Verschaffel, L. (accepted, 07-03-2013). Improving students' representational choices in linear-function problems: An intervention. *Educational Psychology*. (IF most recent : 1.02).

Dewolf, T., Van Dooren, W., Ev Cemen, E., & Verschaffel, L. (in press). The impact of illustrations and warnings on solving mathematical word problems realistically. *Journal of Experimental Education*. (IF most recent : 1.09).

Heine, A., Wissmann, J., Tamm, S., De Smedt, B., Schneider, M., Stern, E., Verschaffel, L., & Jacobs, A. (in press). An electrophysiological investigation of non-symbolic magnitude processing: Numerical distance effects in children with and without mathematical learning disabilities. *Cortex*. (IF most recent : 6.08).

Lem, S., Onghena, P., Verschaffel, L., & Van Dooren, W. (in press). Why a graph is (sometimes) not worth ten thousand words: A study on the misinterpretation of histograms and box plots. *Educational Psychology*. (IF most recent : 1.02).

Luwel, K., Foustana, A., Onghena, P., & Verschaffel, L. (in press). The contribution of intelligence and cognitive flexibility to children's strategy selection and execution. *Learning and Individual Differences*. (IF most recent: 1.58)

Orrantia, J., Vicente, S., Rodríguez, L., Rosales, J., & Verschaffel, L. (in press). Processing of situational information in story problem texts. An analysis from on-line measures. *Spanish Journal of Psychology*. (IF most recent: 0.74)

Peters, G., De Smedt, B., Torbeyns, J., Ghesquière, P., & Verschaffel, L. (in press). Children's use of addition to solve two-digit subtraction problems. *British Journal of Psychology*. (IF most recent : 2.37).

Verschaffel, L., Reybrouck, M., Van Dooren, W., & Degraeuwe, G. (in press). The relative importance of children's criteria for representational adequacy in the perception of simple sonic stimuli. *Psychology of Music*. (IF most recent : 1.57).

### **2013**

Lem, S., Onghena, P., Verschaffel, L., & Van Dooren, W. (2013). The heuristic interpretation of box plots. *Learning and Instruction*, 26, 22-35 (IF most recent : 3.73).

Vamvakoussi, X., Van Dooren, W., & Verschaffel, L. (2013). Educated adults are still affected by intuitive beliefs about the effect of arithmetical operations: Evidence from a reaction-time study. *Educational Studies in Mathematics*, 82, 323-330 (IF most recent : 0.55).

### **2012**

Acevedo Nistal, A., Van Dooren, W., & Verschaffel, L. (2012). Students' reported justifications for their representational choices in linear function problems: an interview study. *Educational Studies*, 104-117 (IF most recent : 0.35).

Acevedo Nistal, A., Van Dooren, W., & Verschaffel, L. (2012). What counts as a flexible

representational choice? An evaluation of students' representational choices to solve linear function problems. *Instructional Science*, 40(6), 999-1019 (citations : 0) (IF publication year : 1.83) (IF most recent : 1.83).

Depaepe, F., De Corte, E., & Verschaffel, L. (2012). Who is granted authority in the mathematics classroom? An analysis of the observed and perceived distribution of authority. *Educational Studies*, 38(2), 223-234 (citations : 0) (IF most recent : 0.35).

Fernández, C., Llinares, S., Van Dooren, W., De Bock, D., & Verschaffel, L. (2012). The development of students' use of additive and proportional methods along primary and secondary school. *European Journal of Psychology of Education*, 27(3), 421-438 (citations : 1) (IF most recent : 0.61).

Peters, G., De Smedt, B., Torbeyns, J., Ghesquière, P., & Verschaffel, L. (2012). Children's use of subtraction by addition on large single-digit subtractions. *Educational Studies in Mathematics*, 79(3), 335-349 (citations : 1) (IF most recent : 0.55).

Peters, G., De Smedt, B., Torbeyns, J., Ghesquière, P., & Verschaffel, L. (2012). Children's use of addition to solve two-digit subtraction problems. *British Journal of Psychology, e-pub ahead of print* (IF most recent : 2.37).

Schillemans, V., Luwel, K., Ceulemans, E., Onghena, P., & Verschaffel, L. (2012). The effect of single versus repeated previous strategy use on individuals' subsequent strategy choice. *Psychologica Belgica*, 52(4), 307-326 (IF most recent : 0.47).

Verschaffel, L., Bryant, P., & Torbeyns, J. (2012). Introduction. *Educational Studies in Mathematics*, 79(3), 327-334 (IF most recent : 0.55).

## 2011

Chen, L., Van Dooren, W., Chen, Q., & Verschaffel, L. (2011). An investigation on Chinese teachers' realistic problem posing and problem solving ability and beliefs. *International Journal of Science and Mathematics Education*, 9(4), 919-948 (citations : 0) (IF publication year : 0.53) (IF most recent : 0.53).

Chen, L., Van Dooren, W., & Verschaffel, L. (2011). An investigation on Chinese teachers' realistic problem solving abilities and beliefs. *Journal of Mathematics Education*, 4(2), 80-96 (citations : 0).

De Bock, D., Van Dooren, W., & Verschaffel, L. (2011). Students' over-use of linearity: An exploration in physics. *Research in Science Education*, 41(3), 389-412 (citations : 2) (IF publication year : 1.34) (IF most recent : 1.34).

De Bock, D., Verschaffel, L., Van Dooren, W., Deprez, J., & Roelens, M. (2011). Abstract or concrete examples in learning mathematics? A replication and elaboration of Kaminski, Sloutsky, and Heckler's study. *Journal for Research in Mathematics Education*, 42(2), 109-126 (IF most recent : 1.5).

De Smedt, B., Ansari, D., Grabner, R., Hannula-Sormunen, M., Schneider, M., & Verschaffel, L. (2011). Cognitive neuroscience meets mathematics education: It takes two to tango. *Educational Research Review*, 6(3), 232-237 (citations : 1) (IF publication year : 2.33) (IF most recent : 2.33).

Dewolf, T., Van Dooren, W., & Verschaffel, L. (2011). Upper elementary school children's understanding and solution of a quantitative problem inside and outside the mathematics class. *Learning and Instruction*, 21(6), 770-780 (citations : 0) (IF publication year : 3.73) (IF most recent : 3.73).

Fernández, C., Llinares, S., Van Dooren, W., De Bock, D., & Verschaffel, L. (2011). Effect of number structure and nature of quantities on secondary school students' proportional reasoning. *Studia Psychologica*, 53(1), 69-81 (citations : 3) (IF publication year : 0.2) (IF most recent : 0.2).

Gillard, E., Schaeken, W., Van Dooren, W., & Verschaffel, L. (2011). Conflict-monitoring and the intuitive error in quantitative reasoning. *Studia Psychologica*, 53(4), 385-401 (citations : 0) (IF publication year : 0.2) (IF most recent : 0.2).

Lem, S., Van Dooren, W., Gillard, E., & Verschaffel, L. (2011). Sample size neglect problems: A critical analysis. *Studia Psychologica*, 53(2), 123-135 (citations : 0) (IF publication year : 0.2) (IF most recent : 0.2).

Luwel, K., Foustana, A., Papadatos, Y., & Verschaffel, L. (2011). The role of intelligence and feedback in children's strategy competence. *Journal of Experimental Child Psychology*, 108(1), 61-76 (citations : 1) (IF publication year : 3.12) (IF most recent : 3.12).

Schillemans, V., Luwel, K., Onghena, P., & Verschaffel, L. (2011). The influence of the previous strategy on individuals' strategy choices. *Studia Psychologica*, 53(4), 339-350 (citations : 0) (IF publication year : 0.2) (IF most recent : 0.2).

Torbeyns, J., De Smedt, B., Peters, G., Ghesquière, P., & Verschaffel, L. (2011). Use of indirect addition in adults' mental subtraction in the number domain up to 1,000. *British Journal of Psychology*, 102(3), 585-597 (citations : 1) (IF publication year : 2.37) (IF most recent : 2.37).

## 2010

De Smedt, B., Ansari, D., Grabner, R., Hannula, M., Schneider, M., & Verschaffel, L. (2010). Cognitive neuroscience meets mathematics education. *Educational Research Review*, 5(1), 97-105 (citations : 8) (IF publication year : 1.26) (IF most recent : 2.33).

De Smedt, B., Torbeyns, J., Stassens, N., Ghesquière, P., & Verschaffel, L. (2010). Frequency, efficiency and flexibility of indirect addition in two learning environments. *Learning and Instruction*, 20(3), 205-215 (citations : 4) (IF publication year : 2.77) (IF most recent : 3.73).

Depaepe, F., De Corte, E., & Verschaffel, L. (2010). Teachers' approaches towards word problem solving: Elaborating or restricting the problem context. *Teaching and Teacher Education*, 26(2), 152-160 (citations : 5) (IF publication year : 1.12) (IF most recent : 1.32).

Ebersbach, M., Van Dooren, W., Goudriaan, M., & Verschaffel, L. (2010). Discriminating non-linearity from linearity: Its cognitive foundations in 5-year olds. *Mathematical Thinking and Learning*, 12(1), 4-19 (citations : 3) (IF most recent : 0.39).

Ebersbach, M., Van Dooren, W., & Verschaffel, L. (2010). Knowledge on accelerated motion as measured by implicit and explicit tasks in 5- to 16-year-olds. *International Journal of Science and Mathematics Education*, 9(1), 25-46 (citations : 0) (IF most recent : 0.53).

Heine, A., Tamm, S., De Smedt, B., Schneider, M., Thaler, V., Torbeyns, J., et al. (2010). The numerical stroop effect in primary school children: a comparison of low, normal and high achievers. *Neuropsychology, Development and Cognition C, Child Neuropsychology*, 16(5), 461-477 (citations : 1) (IF publication year : 1.73) (IF most recent : 1.8).

Heine, A., Thaler, V., Tamm, S., Hawelka, S., Schneider, M., Torbeyns, J., et al. (2010). What the eyes already 'know': Using eye movement measurement to tap into children's implicit numerical magnitude representations. *Infant and Child Development*, 19(2), 175-186 (citations : 4) (IF publication year : 1.25) (IF most recent : 1.2).

Peters, G., De Smedt, B., Torbeyns, J., Ghesquière, P., & Verschaffel, L. (2010). Adults' use of subtraction by addition. *Acta Psychologica*, 135(3), 323-329 (citations : 2) (IF publication year : 2.25) (IF most recent : 2.26).

Peters, G., De Smedt, B., Torbeyns, J., Ghesquière, P., & Verschaffel, L. (2010). Using addition to solve large subtractions in the number domain up to 20. *Acta Psychologica*, 133(2), 163-169 (citations : 5) (IF publication year : 2.25) (IF most recent : 2.26).

Van Dooren, W., De Bock, D., & Verschaffel, L. (2010). From addition to multiplication ... and back. The development of students' additive and multiplicative reasoning skills. *Cognition and*

*Instruction*, 28(3), 360-381 (citations : 4) (IF publication year : 1.89) (IF most recent : 0.93).

Van Dooren, W., De Bock, D., Vleugels, K., & Verschaffel, L. (2010). Just answering ... or thinking? Contrasting pupils' solutions and classifications of missing-value word problems. *Mathematical Thinking and Learning*, 12(1), 20-35 (citations : 2) (IF most recent : 0.39).

Verschaffel, L., Reybrouck, M., Jans, C., & Van Dooren, W. (2010). Children's criteria for representational adequacy in the perception of simple sonic stimuli. *Cognition and Instruction*, 28(4), 475-502 (citations : 1) (IF publication year : 1.89) (IF most recent : 0.93).

Verschaffel, L., Reybrouck, M., Janssens, M., & Van Dooren, W. (2010). Using graphical notations to assess children's experiencing of simple and complex musical fragments. *Psychology of Music*, 38(3), 259-284 (citations : 2) (IF publication year : 1.18) (IF most recent : 1.57).

## 2009

Baroody, A., Torbeyns, J., & Verschaffel, L. (2009). Young children's understanding and application of subtraction-related principles. (Introduction to the Special Issue). *Mathematical Thinking and Learning*, 11(1-2), 2-9 (citations : 5) (IF most recent : 0.39).

De Smedt, B., Janssen, R., Bouwens, K., Verschaffel, L., Boets, B., & Ghesquière, P. (2009). Working memory and individual differences in mathematics achievement: A longitudinal study from first grade to second grade. *Journal of Experimental Child Psychology*, 103(2), 186-201 (citations : 29) (IF publication year : 2.24) (IF most recent : 3.12).

De Smedt, B., Reynvoet, B., Swillen, A., Verschaffel, L., Boets, B., & Ghesquière, P. (2009). Basic number processing and difficulties in single-digit arithmetic: evidence from velo-cardio-facial syndrome. *Cortex*, 45(2), 177-188 (citations : 16) (IF publication year : 4.06) (IF most recent : 6.08).

De Smedt, B., Swillen, A., Verschaffel, L., & Ghesquière, P. (2009). Mathematical learning disabilities in children with 22q11.2 deletion syndrome: a review. *Developmental Disabilities Research Reviews*, 15(1), 4-10 (citations : 8) (IF publication year : 2.0) (IF most recent : 4.04).

De Smedt, B., Verschaffel, L., & Ghesquière, P. (2009). The predictive value of numerical magnitude comparison for individual differences in mathematics achievement. *Journal of Experimental Child Psychology*, 103(4), 469-479 (citations : 42) (IF publication year : 2.24) (IF most recent : 3.12).

Gillard, E., Van Dooren, W., Schaeken, W., & Verschaffel, L. (2009). Dual-processes in the psychology of mathematics education and cognitive psychology. *Human Development*, 52(2), 95-108 (citations : 5) (IF publication year : 1.01) (IF most recent : 1.38).

Gillard, E., Van Dooren, W., Schaeken, W., & Verschaffel, L. (2009). Dual-process theorieën toegepast op het (leren) oplossen van wiskundige problemen. *Pedagogische Studiën*, 86(5), 385-400 (citations : 0) (IF most recent : 0.2).

Gillard, E., Van Dooren, W., Schaeken, W., & Verschaffel, L. (2009). Proportional reasoning as a heuristic-based process: Time constraint and dual-task considerations. *Experimental Psychology*, 56(2), 92-99 (citations : 5) (IF publication year : 1.69) (IF most recent : 2.22).

Luwel, K., Onghena, P., Torbeyns, J., Schillemans, V., & Verschaffel, L. (2009). Strengths and weaknesses of the choice/no-choice method in research on strategy use. *European Psychologist*, 14(4), 351-362 (citations : 4) (IF publication year : 1.48) (IF most recent : 1.31).

Luwel, K., Schillemans, V., Onghena, P., & Verschaffel, L. (2009). Does switching between strategies within the same task involve a cost? *British Journal of Psychology*, 100, 753-771 (citations : 11) (IF publication year : 2.11) (IF most recent : 2.37).

Luwel, K., Torbeyns, J., Schillemans, V., & Verschaffel, L. (2009). Primingeffecten in het strategiekeuzeproces bij wiskundetaken onderzocht en bekeken vanuit het perspectief van

Siegler's theorie van strategic change [Priming effects on the process of strategy selection in mathematics tasks: An investigation and interpretation from Siegler's theory of strategic change]. *Pedagogische Studiën*, 86(5), 369-384 (citations : 0) (IF most recent : 0.2).

Reybrouck, M., Verschaffel, L., & Lauwerier, S. (2009). Children's graphical notations as representational tools for musical sense-making in a music-listening task. *British Journal of Music Education*, 26(2), 189-211 (citations : 4) (IF most recent : 0.29).

Schillemans, V., Luwel, K., Bulté, I., Onghena, P., & Verschaffel, L. (2009). The influence of previous strategy use on individuals' subsequent strategy choice: Findings from a numerosity judgement task. *Psychologica Belgica*, 49(4), 191-205 (citations : 4) (IF publication year : 0.3) (IF most recent : 0.47).

Torbeyns, J., De Smedt, B., Ghesquière, P., & Verschaffel, L. (2009). Acquisition and use of shortcut strategies by traditionally schooled children. *Educational Studies in Mathematics*, 71(1), 1-17 (citations : 5) (IF most recent : 0.55).

Torbeyns, J., De Smedt, B., Stassens, N., Ghesquière, P., & Verschaffel, L. (2009). Solving subtraction problems by means of indirect addition. *Mathematical Thinking and Learning*, 11(1-2), 79-91 (citations : 6) (IF most recent : 0.39).

Torbeyns, J., Ghesquière, P., & Verschaffel, L. (2009). Efficiency and flexibility of indirect addition in the domain of multi-digit subtraction. *Learning and Instruction*, 19(1), 1-12 (citations : 12) (IF publication year : 2.37) (IF most recent : 3.73).

Van Dooren, W., De Bock, D., Evers, M., & Verschaffel, L. (2009). Students' overuse of proportionality on missing-value problems: How numbers may change solutions. *Journal for Research in Mathematics Education*, 40(2), 187-211 (citations : 7) (IF publication year : 1.27) (IF most recent : 1.5).

Verschaffel, L., Luwel, K., Torbeyns, J., & Van Dooren, W. (2009). Conceptualizing, investigating, and enhancing adaptive expertise in elementary mathematics education. *European Journal of Psychology of Education*, 24(3), 335-359 (citations : 16) (IF publication year : 0.6) (IF most recent : 0.61).

Verschaffel, L., van Lieshout, E., & Van Dooren, W. (2009). Cognitieve psychologie en wiskundeonderwijs: een "dangerous liaison"? *Pedagogische Studiën*, 86(5), 329-333 (citations : 0) (IF most recent : 0.2).

## 2008

De Corte, E., Verschaffel, L., & Depaepe, F. (2008). Unraveling the relationship between students' mathematics-related beliefs and the classroom culture. *European Psychologist*, 13(1), 24-36 (citations : 0) (IF publication year : 1.48) (IF most recent : 1.31).

De Smedt, B., Swillen, A., Devriendt, K., Fryns, J., Verschaffel, L., Boets, B., et al. (2008). Cognitive correlates of mathematical disabilities in children with velo-cardio-facial syndrome. *Genetic Counseling*, 19(1), 71-94 (citations : 2) (IF publication year : 0.42) (IF most recent : 0.51).

Ebersbach, M., Frick, A., Luwel, K., Onghena, P., & Verschaffel, L. (2008). The relationship between the shape of the mental number line and familiarity with numbers in 5- to 9-year old children: Evidence for a segmented linear model. *Journal of Experimental Child Psychology*, 99(1), art.nr. 1, 1-17 (citations : 19) (IF publication year : 2.33) (IF most recent : 3.12).

Luwel, K., Siegler, R., & Verschaffel, L. (2008). A microgenetic study of insightful problem solving. *Journal of Experimental Child Psychology*, 99(3), 210-232 (citations : 4) (IF publication year : 2.33) (IF most recent : 3.12).

Luwel, K., & Verschaffel, L. (2008). Analysing strategy use in terms of the four parameters of strategic competence: Contributions from a numerosity judgement task. *Anales de Psicología*, 24(2), 223-239 (citations : 2) (IF most recent : 0.57).

Luwel, K., & Verschaffel, L. (2008). Estimation of 'real' numerosities in elementary school children. *European Journal of Psychology of Education*, 23(3), 319-338 (citations : 1) (IF publication year : 0.53) (IF most recent : 0.61).

Schneider, M., Heine, A., Thaler, V., Torbevens, J., De Smedt, B., Verschaffel, L., et al. (2008). A validation of eye movements as a measure of elementary school children's developing number sense. *Cognitive Development*, 23(3), 424-437 (citations : 6) (IF publication year : 1.01) (IF most recent : 1.73).

Van Dooren, W., De Bock, D., Janssens, D., & Verschaffel, L. (2008). The linear imperative. An inventory and conceptual analysis of students' overuse of linearity. *Journal for Research in Mathematics Education*, 39(3), 311-342 (citations : 14) (IF publication year : 0.97) (IF most recent : 1.5).

Vicente, S., Orrantia, J., & Verschaffel, L. (2008). Influence of situational and mathematical information on situationally difficult word problems. *Studia Psychologica*, 50(4), 337-356 (citations : 3) (IF publication year : 0.26) (IF most recent : 0.2).

Vicente, S., Orrantia, J., & Verschaffel, L. (2008). Influencia del conocimiento matemático y situacional en la resolución de problemas aritméticos verbales: Ayudas textuales y gráficas. *Infancia y Aprendizaje*, 31(4), 463-483 (citations : 5) (IF publication year : 0.4) (IF most recent : 0.4).

Vicente, S., Van Dooren, W., & Verschaffel, L. (2008). Utilizar la matemáticas para resolver problemas reales. *Cultura y Educación*, 20(4), 391-406 (citations : 1) (IF most recent : 0.27).

## 2007

De Bock, D., Verschaffel, L., & Janssens, D. (2007). De lineariteitsillusie bij het oplossen van meetkundeproblemen door leerlingen van het secundair onderwijs. *Pedagogische Studiën*, 74, 261-270 (IF most recent : 0.2).

De Smedt, B., Swillen, A., Devriendt, K., Fryns, J., Verschaffel, L., & Ghesquière, P. (2007). Mathematical disabilities in children with velo-cardio-facial syndrome. *Neuropsychologia*, 45(5), 885-895 (citations : 19) (IF publication year : 3.63) (IF most recent : 3.64).

Kanselaar, G., Van Dooren, W., & Verschaffel, L. (2007). Wiskunde en ICT: Een discussiebijdrage. *Pedagogische Studiën*, 84(5), 418-427 (IF most recent : 0.2).

Van Dooren, W., De Bock, D., Janssens, D., & Verschaffel, L. (2007). Pupils' over-reliance on linearity: A scholastic effect? *British Journal of Educational Psychology*, 77, 307-321 (citations : 11) (IF publication year : 1.02) (IF most recent : 1.42).

Vicente, S., Orrantia, J., & Verschaffel, L. (2007). Influence of situational and conceptual rewording on word problem solving. *British Journal of Educational Psychology*, 77, 829-848 (citations : 12) (IF publication year : 1.02) (IF most recent : 1.42).

## 2006

De Smedt, B., Swillen, A., Devriendt, K., Fryns, J., Verschaffel, L., & Ghesquière, P. (2006). Mathematical disabilities in young primary school children with Velo-Cardio-Facial Syndrome. *Genetic Counseling*, 17(3), 259-280 (citations : 7) (IF publication year : 0.45) (IF most recent : 0.51).

Op 't Eynde, P., De Corte, E., & Verschaffel, L. (2006). "Accepting emotional complexity": A socio-constructivist perspective on the role of emotions in the mathematics classroom. *Educational Studies in Mathematics*, 63, 193-207 (IF most recent : 0.55).

Torbevens, J., Verschaffel, L., & Ghesquière, P. (2006). The development of children's adaptive expertise in the number domain 20 to 100. *Cognition and Instruction*, 24(4), 439-465 (citations : 14) (IF publication year : 1.0) (IF most recent : 0.93).

## 2005

Luwel, K., Lemaire, P., & Verschaffel, L. (2005). Children's strategies in numerosity judgment. *Cognitive Development*, 20(3), 448-471 (citations : 17) (IF publication year : 0.71) (IF most recent : 1.73).

Torbeyns, J., Grobben, H., Verschaffel, L., & Ghesquière, P. (2005). Baard of baart? Accutaresse en strategiegebruik bij het aanvankelijk spellen. *Pedagogische Studiën*, 82(6), 436-452 (IF most recent : 0.2).

Torbeyns, J., Verschaffel, L., & Ghesquière, P. (2005). Simple addition strategies in a first-grade class with multiple strategy instruction. *Cognition and Instruction*, 23(1), 1-21 (citations : 20) (IF publication year : 1.16) (IF most recent : 0.93).

Van Dooren, W., De Bock, D., Hessels, A., Janssens, D., & Verschaffel, L. (2005). Not everything is proportional: Effects of age and problem type on propensities for overgeneralization. *Cognition and Instruction*, 23(1), 57-86 (citations : 43) (IF publication year : 1.16) (IF most recent : 0.93).

Verschaffel, L., Janssens, S., & Janssen, R. (2005). The development of mathematical competence in Flemish preservice elementary school teachers. *Teaching and Teacher Education*, 21(1), 49-63 (citations : 2) (IF publication year : 0.46) (IF most recent : 1.32).

## 2004

De Bock, D., Van Dooren, W., Janssens, D., & Verschaffel, L. (2004). Onterecht lineair redeneren door leerlingen in het secundair onderwijs: een dieptestudie. *Pedagogische Studiën*, 81, 42-57 (IF most recent : 0.2).

De Corte, E., Verschaffel, L., & Masui, C. (2004). The CLIA-model: a framework for designing powerful learning environments for thinking and problem solving. *European Journal of Psychology of Education*, 19, 365-384 (citations : 11) (IF publication year : 0.18) (IF most recent : 0.61).

Torbeyns, J., Verschaffel, L., & Ghesquière, P. (2004). Strategic aspects of simple addition and subtraction: the influence of mathematical ability. *Learning and Instruction*, 14(2), 177-195 (citations : 16) (IF publication year : 1.62) (IF most recent : 3.73).

Torbeyns, J., Verschaffel, L., & Ghesquière, P. (2004). Strategy development in children with mathematical disabilities: insights from the choice/no-choice method and the chronological-age/ability-level-match design. *Journal of Learning Disabilities*, 37(2), 119-131 (citations : 21) (IF publication year : 0.71) (IF most recent : 1.77).

Van Dooren, W., De Bock, D., Hessels, A., Janssens, D., & Verschaffel, L. (2004). Remediating secondary school students' illusion of linearity: a teaching experiment aiming at conceptual change. *Learning and Instruction*, 14(5), 485-501 (citations : 25) (IF publication year : 1.62) (IF most recent : 3.73).

Van Dooren, W., De Bock, D., Weyers, D., & Verschaffel, L. (2004). The predictive power of intuitive rules: a critical analysis of the impact of "More A-more B" and Same A-same B". *Educational Studies in Mathematics*, 56, 179-207 (IF most recent : 0.55).

Van Dooren, W., & Verschaffel, L. (2004). Knowledge acquisition and expertise in specific domains: Mathematics and sciences. *Pedagogische Studiën*, 81, 179-181 (IF most recent : 0.2).

Vosniadou, S., & Verschaffel, L. (2004). Extending the conceptual change approach to mathematics learning and teaching. *Learning and Instruction*, 14(5), 445-451 (citations : 25) (IF publication year : 1.62) (IF most recent : 3.73).

## 2003

De Bock, D., Verschaffel, L., Janssens, D., Van Dooren, W., & Claes, K. (2003). Do realistic contexts and graphical representations always have a beneficial impact on students' performance? Negative evidence from a study on modelling non-linear geometry problems. *Learning and Instruction*, 13(4), 441-463 (citations : 20) (IF publication year : 1.3) (IF most recent : 3.73).

De Corte, E., Verschaffel, L., & Van de Ven, A. (2003). Ontwikkeling van een krachtige leeromgeving voor het bevorderen van het begrijpend lezen bij leerlingen uit de bovenbouw van het basisonderwijs. *Pedagogische Studiën*, 80, 147-166 (IF most recent : 0.2).

Luwel, K., Torbevens, J., & Verschaffel, L. (2003). The relation between metastrategic knowledge, strategy use and performance: findings and reflections from a numerosity judgement task. *European Journal of Psychology of Education*, 18, 425-447 (citations : 6) (IF publication year : 0.24) (IF most recent : 0.61).

Luwel, K., & Verschaffel, L. (2003). Adapting strategy choices to situational factors: the effect of time pressure on children's numerosity judgement strategies. *Psychologica Belgica*, 43(4), 269-295 (citations : 3) (IF publication year : 0.33) (IF most recent : 0.47).

Luwel, K., Verschaffel, L., Onghena, P., & De Corte, E. (2003). Analysing the adaptiveness of strategy choices using the choice/no-choice method: the case of numerosity judgement. *European Journal of Cognitive Psychology*, 15, 511-537 (citations : 14) (IF publication year : 1.18) (IF most recent : 1.09).

Luwel, K., Verschaffel, L., Onghena, P., & De Corte, E. (2003). Flexibility in strategy use: adaptation of numerosity judgment strategies to task characteristics. *European Journal of Cognitive Psychology*, 15(2), 247-266 (citations : 7) (IF publication year : 1.18) (IF most recent : 1.09).

Luwel, K., Verschaffel, L., Onghena, P., & De Corte, E. (2003). Strategic aspects of numerosity judgment: the effect of task characteristics. *Experimental Psychology*, 50, 63-75 (citations : 15) (IF publication year : 1.89) (IF most recent : 2.22).

Van Dooren, W., De Bock, D., Depaepe, F., Janssens, D., & Verschaffel, L. (2003). The illusion of linearity: expanding the evidence towards probabilistic reasoning. *Educational Studies in Mathematics*, 53(2), 113-138 (IF most recent : 0.55).

## 2002

Canters, R., Op 't Eynde, P., & Verschaffel, L. (2002). MILE-Vlaanderen, een videogebaseerde digitale leeromgeving voor het geïntegreerd en zelfstandig verwerven van expertise door studenten onderwijskunde. *Pedagogische Studiën*, 79, 435-450 (IF most recent : 0.2).

De Bock, D., Van Dooren, W., Janssens, D., & Verschaffel, L. (2002). Improper use of linear reasoning: An in-dept study of the nature and the irresistability of secondary school students' errors. *Educational Studies in Mathematics*, 50(3), 311-334 (IF most recent : 0.55).

De Bock, D., Verschaffel, L., & Janssens, D. (2002). The effects of different problem presentations and formulations on the illusion of linearity in secondary school students. *Mathematical Thinking and Learning*, 4(1), 65-89 (IF most recent : 0.39).

Luwel, K., Verschaffel, L., Onghena, P., & De Corte, E. (2002). Adaptief strategiegebruik bij het bepalen van aantallen: de invloed van taakkenmerken [Adaptive strategy use for judging numerosities: The influence of task characteristics]. *Pedagogische Studiën*, 79, 144-156 (IF most recent : 0.2).

Torbevens, J., Verschaffel, L., & Ghesquière, P. (2002). Efficiëntie en adaptiviteit van strategiegebruik bij elementaire rekensommen bestudeerd via de Choice/no-choice methode. *Pedagogische Studiën*, 79(2), 89-102 (IF most recent : 0.2).

Torbeyns, J., Verschaffel, L., & Ghesquière, P. (2002). Strategic competence: applying Siegler's theoretical and methodological framework to the domain of simple addition. *European Journal of Psychology of Education*, 17(3), 275-291 (citations : 11) (IF publication year : 0.29) (IF most recent : 0.61).

Van Dooren, W., Verschaffel, L., & Onghena, P. (2002). The impact of preservice teachers' content knowledge on their evaluation of students' strategies for solving arithmetic and algebra word problems. *Journal for Research in Mathematics Education*, 33(5), 319-351 (citations : 5) (IF publication year : 0.52) (IF most recent : 1.5).

Verschaffel, L., & Ruijssemaars, W. (2002). Keuze en ontwikkeling van aanvankelijke rekenstrategieën: inleiding tot het themanummer. *Pedagogische Studiën*, 79, 83-88 (IF most recent : 0.2).

## 2001

De Corte, E., Verschaffel, L., & Van de Ven, A. (2001). Improving text comprehension strategies in upper primary school children: a design experiment. *British Journal of Educational Psychology*, 71(4), 531-559 (citations : 23) (IF publication year : 0.75) (IF most recent : 1.42).

Luwel, K., Beem, A., Onghena, P., & Verschaffel, L. (2001). Using segmented linear regression models with unknown change points to analyze strategy shifts in cognitive tasks. *Behavior Research Methods, Instruments & Computers*, 33(4), 470-478 (citations : 17) (IF publication year : 0.87).

Luwel, K., Verschaffel, L., Onghena, P., & De Corte, E. (2001). Ontwikkeling van strategieën van kinderen voor het bepalen van hoeveelheden in verschillende roostergroottes [The development of children's strategies for determining numerosities in grids of different sizes]. *Pedagogische Studiën*, 78, 56-66 (IF most recent : 0.2).

Luwel, K., Verschaffel, L., Onghena, P., & De Corte, E. (2001). Strategic aspects of children's numerosity judgement. *European Journal of Psychology of Education*, 16(2), 233-255 (citations : 8) (IF publication year : 0.59) (IF most recent : 0.61).

## 2000

Luwel, K., Verschaffel, L., Onghena, P., & De Corte, E. (2000). Children's strategies for numerosity judgement in square grids of different sizes. *Psychologica Belgica*, 40(3), 183-209 (citations : 10) (IF publication year : 0.42) (IF most recent : 0.47).

## 1999

Verschaffel, L., De Corte, E., & Lasure, S. (1999). Realistisch modelleren van problematische wiskundige toepassingsopgaven op de basisschool. Een review van het recent onderzoek.. *Pedagogische Studiën*, 76, 183-200 (IF most recent : 0.2).

Verschaffel, L., De Corte, E., Lasure, S., Van Vaerenbergh, G., Bogaerts, H., & Ratinckx, E. (1999). Design and evaluation of a learning environment for mathematical modeling and problem solving in upper elementary school children. *Mathematical Thinking and Learning*, 1, 195-230 (IF most recent : 0.39).

Verschaffel, L., De Corte, E., & Vierstraete, H. (1999). Upper elementary school pupils' difficulties in modeling and solving nonstandard additive word problems involving ordinal numbers. *Journal for Research in Mathematics Education*, 30(3), 265-285 (citations : 10) (IF publication year : 0.39) (IF most recent : 1.5).

## 1998

De Bock, D., Verschaffel, L., & Janssens, D. (1998). The predominance of the linear model in secondary school students' solutions of word problems involving length and area of similar plane figures. *Educational Studies in Mathematics*, 35, 65-83 (IF most recent : 0.55).

De Bock, D., Verschaffel, L., & Janssens, D. (1998). The predominance of the linear model in secondary school students' solutions of word problems involving length and area of similar plane. *Educational Studies in Mathematics*, 35, 65-83 (IF most recent : 0.55).

Verschaffel, L. (1998). Kroniek: The Biennial Meeting of the European Association for Research on Learning and Instruction, August 26-30, 1997. *Pedagogische Studiën*, 75, 52-56 (IF most recent : 0.2).

Verschaffel, L., De Corte, E., Lamote, C., & Dherdt, N. (1998). The acquisition and use of an adaptive strategy for estimating numerosity. *European Journal of Psychology of Education*, 13(3), 347-370 (citations : 20) (IF publication year : 0.26) (IF most recent : 0.61).

Verschaffel, L., & Simons, P. (1998). Hoe modern is de denkpsychologie van F.W. Prins? *Pedagogische Studiën*, 5, 221-232 (IF most recent : 0.2).

Verschaffel, L., & Verloop, N. (1998). Kroniek: The Annual Meeting of the American Educational Research Association, April 13-17, 1998, San Diego. *Pedagogische Studiën*, 75, 202-220 (IF most recent : 0.2).

## 1997

Verschaffel, L., & De Corte, E. (1997). Teaching realistic mathematical modeling in the elementary school: a teaching experiment with fifth graders. *Journal for Research in Mathematics Education*, 28(5), 577-601 (citations : 20) (IF most recent : 1.5).

Verschaffel, L., De Corte, E., & Borghart, I. (1997). Pre-service teachers' conceptions and beliefs about the role of real-world knowledge in mathematical modelling of school word problems. *Learning and Instruction*, 7(4), 339-359 (citations : 30) (IF most recent : 3.73).

Yoshida, H., Verschaffel, L., & De Corte, E. (1997). Realistic considerations in solving problematic word problems: Do Japanese and Belgian children have the same difficulties?. *Learning and Instruction*, 7(4), 329-338 (citations : 22) (IF most recent : 3.73).

## 1996

De Corte, E., & Verschaffel, L. (1996). An empirical test of the impact of primitive intuitive models of operations on solving word problems with a multiplicative structure. *Learning and Instruction*, 6(3), 219-242 (IF most recent : 3.73).

Verschaffel, L., & De Corte, E. (1996). Leren realistisch modelleren en interpreteren van vraagstukken. Een exploratief onderwijsexperiment bij leerlingen van de bovenbouw van de basisschool. *Pedagogische Studiën*, 1996(73), 322-337 (IF most recent : 0.2).

## 1994

Verschaffel, L. (1994). Using retelling data to study elementary-school children's representations and solutions of compare problems. *Journal for Research in Mathematics Education*, 25(2), 141-165 (citations : 16) (IF most recent : 1.5).

## 1993

Verschaffel, L., & De Corte, E. (1993). A decade of research on word problem solving in Leuven: theoretical, methodological, and practical outcomes. *Educational Psychology Review*, 5(3), 239-256 (IF most recent : 2.41).

## 1992

Verschaffel, L. (1992). Hoe leerlingen vergelijkingsvraagstukken begrijpen en oplossen: toetsing van een procesmodel via de techniek van het navertellen. *Pedagogische Studiën*, 69, 270-283 (IF most recent : 0.2).

Verschaffel, L., De Corte, E., & Pauwels, A. (1992). Solving compare problems - an eye-movement test of lewis and mayers consistency hypothesis. *Journal of Educational*

*Psychology*, 84(1), 85-94 (citations : 37) (IF most recent : 3.08).

#### 1990

De Corte, E., Verschaffel, L., & Pauwels, A. (1990). Influence of the semantic structure of word-problems on 2nd-graders eye-movements. *Journal of Educational Psychology*, 82(2), 359-365 (citations : 22) (IF most recent : 3.08).

De Corte, E., Verschaffel, L., & Schrooten, H. (1990). Cognitieve effecten van het systematisch leren programmeren in LOGO: een onderwijsexperiment bij zesdeklassers. *Pedagogische Studiën*, 67, 293-305 (IF most recent : 0.2).

#### 1988

Lowyck, J., Wolters, M., Simons, P., Verschaffel, L., Janssen, P., Beukhof, et al. (1988). Kroniek: Verslag van de EARLI-Conferentie, 19-22 september 1987 te Tübingen. *Pedagogische Studiën*, 65, 126-136 (IF most recent : 0.2).

#### 1987

De Corte, E., & Verschaffel, L. (1987). Oogbewegingen van eersteklassers tijdens het oplossen van redactie-opgaven. *Pedagogische Studiën*, 64, 137-149 (IF most recent : 0.2).

De Corte, E., & Verschaffel, L. (1987). The effect of semantic structure on 1st-graders strategies for solving addition and subtraction word-problems. *Journal for Research in Mathematics Education*, 18(5), 363-381 (citations : 48) (IF most recent : 1.5).

#### 1986

De Corte, E., Lowyck, J., & Verschaffel, L. (1986). Zelfrapportering als techniek bij de studie van onderwijsleerprocessen: een poging tot verheldering. *Pedagogische Studiën*, 63, 506-514 (IF most recent : 0.2).

Verschaffel, L. (1986). Recent developments in instructional psychology in Europe. A review of the First European Conference for Research on Learning and Instruction, Leuven (Belgium), June 10-13 1985. *European Journal of Psychology of Education*, 1(1), 107-120 (IF most recent : 0.61).

Verschaffel, L., & Span, P. (1986). Kroniek: First European Conference for Research on Learning and Instruction, gehouden te Leuven van 10 tot 13 juni 1985. *Pedagogische Studiën*, 63(3), 136-140 (IF most recent : 0.2).

Verschaffel, L., & Van Oers, B. (1986). Kroniek: Onderzoek voor het reken/wiskunde-onderwijs. Verslag van een NVORWO-conferentie te Noordwijkerhout, 23 en 24 mei 1985. *Pedagogische Studiën*, 63(1), 38-40 (IF most recent : 0.2).

#### 1985

De Corte, E., & Verschaffel, L. (1985). Oplossingsstrategieën van eersteklassers bij aanvankelijke redactie-opgaven over optellen en aftrekken. *Pedagogische Studiën*, 62(3), 125-138 (IF most recent : 0.2).

De Corte, E., Verschaffel, L., & Dewin, L. (1985). Influence of rewording verbal problems on childrens problem representations and solutions. *Journal of Educational Psychology*, 77(4), 460-470 (citations : 71) (IF most recent : 3.08).

#### 1984

De Corte, E., Verschaffel, L., & De Win, L. (1984). De invloed van tekstenmerken op de representatie-en oplossingsprocessen van jonge kinderen bij eenvoudige optel- en aftrekvraagstukjes. *Pedagogisch Tijdschrift*, 9, 527-538 (IF most recent : 0.2).

## **1983**

De Corte, E., & Verschaffel, L. (1983). Onderzoek van onderwijsleerprocessen en onderwijspraktijk. Een exemplarische besprekking met betrekking tot het aanvankelijk wiskunde-onderwijs. *Pedagogische Studiën*, 60, 153-164 (IF most recent : 0.2).

## **1981**

De Corte, E., & Verschaffel, L. (1981). Childrens solution processes in elementary arithmetic problems - analysis and improvement. *Journal of Educational Psychology*, 73(6), 765-779 (citations : 29) (IF most recent : 3.08).

## **A2 Papers published in widely distributed scientific journals, for which manuscripts submitted are assessed by international experts and which are not included in (A1) (Chronological order)**

### **In press**

Chen, L., Van Dooren, W., & Verschaffel, L. (in press). An investigation on Chinese pupils' problem posing and solving abilities and beliefs. *Frontiers of Education in China*.

Gkoris, E., Depaepe, F., & Verschaffel, L. (in press). Investigating the gap between real world and school word problems. A comparative analysis of the authenticity of word problems in the old and the current mathematics textbooks for the 5<sup>th</sup> grade of elementary school in Greece. *Mediterranean Journal for Research in Mathematics Education*.

Lem, S., Onghena, P., Verschaffel, L., & Van Dooren, W. (in press). External representations for data distributions: in search of cognitive fit. *Statistics Education Research Journal*.

Torbeyns, J., & Verschaffel, L. (in press). Efficient and flexible strategy use on multi-digit sums: A choice/no-choice study. *Research in Mathematics Education* (Special Issue on Experimental Methods in Mathematics Education).

Van Hoof, J., Lijnen, T., Verschaffel, L., & Van Dooren, W. (in press). Are secondary school students still hampered by the natural number bias? A reaction time study on fraction comparison tasks. *Research in Mathematics Education*.

## **2012**

De Vita, M., Verschaffel, L., & Elen, J. (2012). Acceptance of interactive whiteboards by Italian mathematics teachers. *Educational Research (open access)*, 3(7), 553-565.

Dewolf, T., Van Dooren, W., Kellen, A., & Verschaffel, L. (2012). The influence of narrative and depictive elements in solving mathematical word problems realistically. *Mediterranean Journal for Research in Mathematics Education*, 11(1-2), 17-33.

Vamvakoussi, X., Van Dooren, W., & Verschaffel, L. (2012). Naturally biased? In search for reaction time evidence for a natural number bias in adults. *The Journal of Mathematical Behavior*, 31(3), 344-355.

## **2011**

Csíkos, C., Kelemen, R., & Verschaffel, L. (2011). Fifth-grade students' approaches to and beliefs of mathematics word problem solving: a large sample Hungarian study. *ZDM*, 43(4), 561-571.

De Corte, E., Depaepe, F., Op 't Eynde, P., & Verschaffel, L. (2011). Students' self-regulation of emotions in mathematics: An analysis of meta-emotional knowledge and skills. *ZDM*, 43, 483-495.

Duan, X., Depaepe, F., & Verschaffel, L. (2011). Chinese upper elementary school mathematics teachers' attitudes towards the place and value of problematic word problems in mathematics education. *Frontiers of Education in China*, 6(3), art.nr. DOI: 10.1007/s11516-011-0141-3, 449-469.

Schillemans, V., Luwel, K., Onghena, P., & Verschaffel, L. (2011). Strategy switch cost in mathematical thinking: Empirical evidence for its existence and importance. *Mediterranean Journal for Research in Mathematics Education*, 10(1-2), 1-22.

Vanhoof, S., Kuppens, S., Castro Sotos, A., Verschaffel, L., & Onghena, P. (2011). Measuring statistics attitudes: Structure of the survey of attitudes toward statistics. *Statistics Education Research Journal*, 10(1), 35-51.

## 2010

Depaepe, F., De Corte, E., & Verschaffel, L. (2010). Teachers' metacognitive and heuristic approaches to word problem solving: Analysis and impact on students' beliefs and performance. *ZDM*, 42(2), 205-218.

De Smedt, B., & Verschaffel, L. (2010). Travelling down the road from cognitive neuroscience to mathematics education ... and back. *ZDM*, 42(6), 649-654.

## 2009

Acevedo Nistal, A., Van Dooren, W., Clarebout, G., Elen, J., & Verschaffel, L. (2009). Conceptualising, investigating and stimulating representational flexibility in mathematical problem solving and learning: a critical review. *ZDM*, 41, 627-636.

Heinze, A., Star, J., & Verschaffel, L. (2009). Flexible and adaptive use of strategies and representations in mathematics education. Introduction. *ZDM*, 41, 535-540.

Torbeyns, J., De Smedt, B., Ghesquière, P., & Verschaffel, L. (2009). Jump or compensate? Strategy flexibility in the number domain up to 100. *ZDM*, 41, 581-590.

Torbeyns, J., De Smedt, B., Ghesquière, P., & Verschaffel, L. (2009). Solving subtractions adaptively by means of indirect addition: influence of task, subject, and instructional factors. *Mediterranean Journal for Research in Mathematics Education*, 8(2), 1-30.

## 2008

Van Dooren, W., Vicente, S., De Bock, D., & Verschaffel, L. (2008). Qué, dónde y por qué de la sobregeneralización del razonamiento lineal en matemáticas. *Boletín de Investigación Educativa*, 23(1), 231-256.

## 2007

Chen, L., Van Dooren, W., Chen, Q., & Verschaffel, L. (2007). The relationship between posing and solving arithmetic word problems among Chinese elementary school children. *Research in Mathematical Education*, 11, 1-31.

De Corte, E., & Verschaffel, L. (2007). Analyzing mathematics classroom cultures and practices. *International Journal of Educational Research*, 46(5), 247-251.

Depaepe, F., De Corte, E., & Verschaffel, L. (2007). Unraveling the culture of the mathematics classroom: A video-based study in sixth grade. *International Journal of Educational Research*, 46(5), 266-279.

Verschaffel, L., Luwel, K., Torbeyns, J., & Van Dooren, W. (2007). Developing adaptive expertise: A feasible and valuable goal for (elementary) mathematics education? *Ciencias Psicológicas*, 1, 27-35.

Verschaffel, L., Torbeyns, J., De Smedt, B., Luwel, K., & Van Dooren, W. (2007). Strategy flexibility in children with low achievement in mathematics. *Educational and Child Psychology*,

24(2), 16-27.

## 2006

Op 't Eynde, P., De Corte, E., & Verschaffel, L. (2006). Epistemic dimensions of students' mathematics-related belief systems. *International Journal of Educational Research*, 45, 57-70.

Vanhoof, S., Onghena, P., Verschaffel, L., Van Dooren, W., Van Den Noortgate, W., & Castro Sotos, A. (2006). Attitudes towards statistics and their relationship with short- and long-term exam results. *Journal of Statistics Education*, 14(3).

## 2005

Chen, L., Van Dooren, W., Qi, C., & Verschaffel, L. (2005). The relationship between posing and solving division with remainder problems among Chinese elementary school children. *Mediterranean Journal for Research in Mathematics Education*, 4, 85-109.

## 2003

Van Dooren, W., De Bock, D., De Bolle, E., Janssens, D., & Verschaffel, L. (2003). Secondary school students' illusion of linearity: the role of direct versus indirect perimeter and area measures. *Mediterranean Journal for Research in Mathematics Education*, 2, 1-18.

Van Dooren, W., De Bock, D., Verschaffel, L., & Janssens, D. (2003). Improper applications of proportional reasoning. *Mathematics Teaching in the Middle School*, 9(4), 204-209.

Van Dooren, W., Verschaffel, L., & Onghena, P. (2003). Pre-service teachers' preferred strategies for solving arithmetic and algebra word problems. *Journal of Mathematics Teacher Education*, 6, 27-52.

## 2002

De Corte, E., & Verschaffel, L. (2002). High-powered learning communities: design experiments as a lever to bridge the theory/practice divide. *Prospects: Quarterly Review of Comparative Education*, 32, 517-531.

Janssen, R., De Corte, E., Verschaffel, L., Knoors, E., & Colémont, A. (2002). National assessment of new standards for mathematics in elementary education in Flanders. *Educational Research and Evaluation*, 8, 197-225.

Torbeyns, J., Van Den Noortgate, W., Ghesquière, P., Verschaffel, L., Van de Rijt, B., & van Luit, J. (2002). Development of early numeracy in 5- to 7-year-old children: a comparison between Flanders and the Netherlands. *Educational Research and Evaluation*, 8(3), 249-275.

## 2001

De Corte, E., & Verschaffel, L. (2001). Construerend onderwijskundig onderzoek: hefboom voor theorievorming en innovatie. *Pedagogisch Tijdschrift*, 26, 167-188.

Torbeyns, J., Verschaffel, L., & Ghesquière, P. (2001). Strategieontwikkeling en strategiekeuze bij cognitieve taken: een kritische analyse van Sieglers theorie van "strategic change". *Pedagogisch Tijdschrift*, 26(2), 113-142.

## 2000

Verschaffel, L., & Greer, B. (2000). Word problems. Research and curriculum reform by S.K. Reed. *ZDM*, 3, 62-66.

## 1990

De Klerk, L., & Verschaffel, L. (1990). De computer als simulator en als tutor van onderwijsleerprocessen. *Pedagogisch Tijdschrift*, 15, 303-312.

Pauwels, A., Verschaffel, L., & Poelmans, P. (1990). Het rekenen van jonge migrantenkinderen in het Vlaams Lager Onderwijs. Resultaten van een schoolvorderingentoets niveau eerste leerjaar. *Pedagogisch Tijdschrift*, 15(6), 337-348.

Verschaffel, L., & De Corte, E. (1990). De techniek van computersimulatie in het onderzoek naar het leren oplossen van vraagstukken over optellen en aftrekken. *Pedagogisch Tijdschrift*, 15(5), 259-269.

Verschaffel, L., & Greer, B. (1990). Introduction to the special issue on mathematics as a proving ground for information-processing theories. *International Journal of Educational Research*, 14(1), 3-12.

## 1988

De Corte, E., Verschaffel, L., & Schrooten, H. (1988). De computer als hulpmiddel bij de analyse en beïnvloeding van de diagnostische vaardigheid van aspirant-leerkrachten. *Pedagogisch Tijdschrift*, 13(2), 106-117.

De Corte, E., Verschaffel, L., & Van Coillie, V. (1988). Influence of number size, problem structure, and response mode on children's solutions of multiplication word problems. *The Journal of Mathematical Behavior*, 7(3), 197-216.

## 1985

De Corte, E., & Verschaffel, L. (1985). Beginning first graders' initial representation of arithmetic word problems. *The Journal of Mathematical Behavior*, 4, 3-21.

## A3 Papers published in national peer-reviewed journals, not included in (A1) or (A2) (Chronological order)

### 2013

Vanpaemel, G., De Bock, D., & Verschaffel, L. (2013). Willy Servais (1913-1979) en de debatten in de jaren vijftig over een hervorming van de wiskundecurricula voor het secundair onderwijs. *Wiskunde en Onderwijs*, 153, 16-26.

### 2012

Torbeyns, J., Obersteiner, A., & Verschaffel, L. (2012). Number sense in early and elementary mathematics education. *Yearbook of the Department of Early Childhood Studies*, 5, 60-75.

### 2011

De Bock, D., Deprez, J., Van Dooren, W., Roelens, M., & Verschaffel, L. (2011). Concreet of abstract? Nieuw onderzoek weerlegt negatief effect van concrete voorbeelden. *Nieuwe Wiskrant*, 30(3), 35-39.

De Bock, D., Deprez, J., Van Dooren, W., Roelens, M., & Verschaffel, L. (2011). Wiskunde leren vanuit abstracte voorbeelden: hoe overtuigend zijn de resultaten van Kaminski? (deel 2). *Wiskunde en Onderwijs*, 37(146), 140-146.

Schampaert, A., Wils, K., Clarebout, G., & Verschaffel, L. (2011). De relatie tussen heden en verleden in de geschiedenisles. Een empirisch onderzoek naar de opvattingen van toekomstige leraren geschiedenis in Vlaanderen. *Hermes: Tijdschrift van de Vlaamse Leraren Geschiedenis*, 15(49), 1-8.

### 2010

De Bock, D., Deprez, J., Van Dooren, W., Roelens, M., & Verschaffel, L. (2010). Wiskunde leren vanuit abstracte voorbeelden: hoe overtuigend zijn de resultaten van Kaminski? Deel 1.

*Wiskunde en Onderwijs*, (145), 19-27.

De Bock, D., Van Dooren, W., & Verschaffel, L. (2010). (On)terecht lineair redeneren bij het oplossen van fysicavraagstukken door leerlingen van het secundair onderwijs. *TD&T: Tijdschrift voor Didactiek der Beta-wetenschappen*, 27(1 & 2), 7-19.

Depaepe, F., De Corte, E., & Verschaffel, L. (2010). Realistisch modelleren in het basisonderwijs: tussen doelstelling en resultaat. *Logopedie*, 23(4), 10-17.

Van Dooren, W., Ebersbach, M., & Verschaffel, L. (2010). Over rekenen, doen en weten. De ontwikkeling van schoolse, impliciete en expliciete kennis over beweging op een hellend vlak. *TD&T: Tijdschrift voor Didactiek der Beta-wetenschappen*, 27(1 & 2), 21-35.

Verschaffel, L., Van Dooren, W., Greer, B., & Mukhopadhyay, S. (2010). Reconceptualising word problems as exercises in mathematical modelling. *Journal für Mathematik-Didaktik*, 31(1), 9-29.

## 2009

Vanhoof, S., Castro Sotos, A., Verschaffel, L., & Onghena, P. (2009). Vragenlijst statistisch redeneren. *Wiskunde en Onderwijs*, 35, 305-319.

Verschaffel, L. (2009). 'Over het muurtje kijken': achtergrond, inhoud en receptie van het Final Report van het 'National Mathematics Advisory Panel' in de U.S. *Panama-Post. Reken-wiskundeonderwijs: onderzoek, ontwikkeling, praktijk*, 28(1), 3-20.

## 2007

Verschaffel, L., Torbevens, J., De Smedt, B., Luwel, K., & Van Dooren, W. (2007). A stratégiahásználat rugalmassága az alsó tagozatos metamatikában: elemzés és fejlesztés [Strategy flexibility in children in elementary school mathematics: Analysis and improvement]. *Iskolakultura*, 17(11-12), 92-102.

## 2006

Chen, L., Verschaffel, L., & Chen, Q. (2006). Discussion on the relationship of problem posing to the development of students' ability. *Journal of Mathematics Education*, 15, 31-34.

Chen, L., Verschaffel, L., & Chen, Q. (2006). Integrating multiple perspectives on effective learning environments. *Journal of Mathematics Education*, 15, 57-59.

## 2005

Torbevens, J., Vanoverberghe, M., Verschaffel, L., & Ghesquière, P. (2005). Ontwikkeling van geheugenkennis bij kinderen met rekenmoeilijkheden. *Signaal: Significant voor de professionele hulpverlener*, 14(50), 34-50.

Van Dooren, W., De Bock, D., & Verschaffel, L. (2005). Intuïties en intuïtieve regels: interpretatiekader voor fouten van leerlingen? (deel 2). *Nieuwe Wiskrant*, 24(3), 30-35.

## 2004

Chen, L., Verschaffel, L., & Li, X. (2004). An investigation of the relation between posing and solving word problems. *Journal of Mathematics Education*, 13(4), 67-71.

De Bock, D., Van Dooren, W., Janssens, D., & Verschaffel, L. (2004). Pourquoi la linéarité joue-t-elle des tours aux élèves ? Une étude approfondie dans l'enseignement secondaire. *Math-École*, (213), 37-49.

De Bock, D., Van Dooren, W., & Verschaffel, L. (2004). Intuïties en intuïtieve regels: Interpretatiekader voor fouten van leerlingen? *Wiskunde en Onderwijs*, 30, 250-265.

Torbevens, J., Dereymaeker, E., Van Ouytsel, K., Verschaffel, L., & Ghesquière, P. (2004).

Ontwikkeling van aanvankelijke rekenstrategieën bij kinderen met rekenproblemen. *Significant: elektronisch wetenschappelijk tijdschrift voor klinische research en reviews in revalidatie en psychosociale hulpverlening*, 2004(3), 1-19.

Van Dooren, W., De Bock, D., & Verschaffel, L. (2004). Intuïties en intuïtieve regels: Interpretatiekader voor fouten van leerlingen? (deel 1). *Nieuwe Wiskrant*, 24(2), 28-31.

## 2003

De Bock, D., Janssens, D., & Verschaffel, L. (2003). Het succes van de nieuwe wiskunde. *Karakter: Tijdschrift van Wetenschap*, 1(3), 17-18.

De Bock, D., Van Dooren, W., Janssens, D., & Verschaffel, L. (2003). Waarom lineariteit de leerlingen soms parten speelt: Een diepteststudie in het voortgezet onderwijs. *Nieuwe Wiskrant*, 22, 4-10.

De Bock, D., Van Dooren, W., Janssens, D., & Verschaffel, L. (2003). Waarom lineariteit de leerlingen soms parten speelt: Een diepteststudie in het secundair onderwijs. *Wiskunde en Onderwijs*, 29, 208-223.

De Corte, E., & Verschaffel, L. (2003). El desarrollo de habilidades de autoregulación en la solución de problemas matemáticos. *Revista pensamiento educativo*, 32, 286-305.

## 2002

Van Dooren, W., De Bock, D., & Verschaffel, L. (2002). De illusie van de lineariteit in het kansrekenen: een terreinverkenning. *Nieuwe Wiskrant*, 21, 43-49.

Van Dooren, W., De Bock, D., & Verschaffel, L. (2002). De lineariteitsillusie bij leerlingen in het secundair onderwijs: een uitbreiding naar kansrekening. *Wiskunde en Onderwijs*, 28, 347-361.

## 2001

Canters, R., & Verschaffel, L. (2001). MILE op Vlaamse wijze. *Panama-Post. Reken-Wiskundeonderwijs: Onderzoek, Ontwikkeling, Praktijk*, 19(4), 31-38.

Op 't Eynde, P., Verschaffel, L., & De Corte, E. (2001). Onderwijsonderzoek: wat hebben we eraan? *Impuls voor Onderwijsbegeleiding*, 31(4), 214-228.

Torbeyns, J., Verschaffel, L., & Ghesquière, P. (2001). Oplossingsstrategieën bij sommen met de brug over 10 van leerlingen uit het tweede leerjaar. *Logopedie: informatiemedium van de Vlaamse vereniging voor logopedisten*, 14, 42-49.

Van Dooren, W., Verschaffel, L., & Onghena, P. (2001). Rekenen of algebra? Voorkeuren van toekomstige leerkrachten voor rekenkundige of algebraïsche werkwijzen. *Tijdschrift voor nascholing en onderzoek van het reken-wiskundeonderwijs*, 19, 17-30.

## 2000

Dhert, S., Verschaffel, L., De Corte, E., Vandeput, L., & Lowyck, J. (2000). Het samen leren stellen en oplossen van wiskundige toepassingsproblemen met 'WebKnowledge Forum': een 'design experiment' in de bovenbouw van de basisschool. *Panama-Post. Reken-Wiskundeonderwijs: Onderzoek, Ontwikkeling, Praktijk*, 19, 14-19.

Torbeyns, J., Van de Rijt, B., Van Den Noortgate, W., Van Luit, H., Ghesquière, P., & Verschaffel, L. (2000). Ontwikkeling van getalbegrip bij vijf- tot zeventjarigen. Een vergelijking tussen Vlaanderen en Nederland. *Tijdschrift voor Orthopedagogiek*, 39(3), 118-131.

Verschaffel, L., De Corte, E., Lowyck, J., Dhert, S., & Vandeput, L. (2000). Computerondersteund samenwerkend leren: vraagstukken leren opstellen en oplossen met behulp van 'Knowledge Forum' in de hoogste klassen van de basisschool. *Impuls voor Onderwijsbegeleiding*, 30(3), 148-160.

## **1999**

De Bock, D., Verschaffel, L., & Janssens, D. (1999). De lineariteitsillusie bij leerlingen van het secundair onderwijs. *TDβ: Tijdschrift voor Didactiek der Beta-Wetenschappen*, 16(1), 73-90.

Verschaffel, L., De Corte, E., Lasure, S., Van Vaerenbergh, G., Bogaerts, H., & Ratinckx, E. (1999). Vaardig oplossen van contextgebonden wiskundeproblemen in de bovenbouw van de basisschool. *Tijdschrift voor Onderwijsresearch*, 24, 242-261.

## **1998**

Verschaffel, L., De Corte, E., & Vierstraete, H. (1998). Moeilijkheden van basisschoolleerlingen bij het modelleren en oplossen van optel- en aftrekvraagstukken met ordinale getallen. *Tijdschrift voor Nascholing en Onderzoek van het Reken-Wiskundeonderwijs - Panama-Post*, 16(4), 11-22.

## **1997**

Verschaffel, L., De Corte, E., Lamote, C., & Dhert, N. (1997). Ontwikkeling van een adaptieve aanpakstrategie voor het schatten van hoeveelheden. *Tijdschrift voor Onderwijsresearch*, 22(3), 161-185.

## **1995**

Verschaffel, L., De Corte, E., & Lasure, S. (1995). (On)realistisch interpreteren en oplossen van schoolvraagstukken. Een studie bij tien- à elfjarige basisschoolleerlingen. *Panama-Post. Reken-Wiskundeonderwijs: Onderzoek, Ontwikkeling, Praktijk*, 13(4), 3-12.

## **1993**

Verschaffel, L. (1993). Leren oplossen van reken/wiskundeproblemen in en buiten de school. Enkele resultaten van recent onderzoek. *Wiskunde en Onderwijs*, 19(73), 19-32.

## **1992**

De Corte, E., Verschaffel, L., & Schrooten, H. (1992). Kognitive Effekte computergestützten Lernens: Zum Stand der Forschung. *Unterrichtswissenschaft*, 20(1), 12-33.

Simons, P., & Verschaffel, L. (1992). Transfer: onderzoek en onderwijs. *Tijdschrift voor Onderwijsresearch*, 17(1), 3-16.

Verschaffel, L., De Corte, E., & Schrooten, H. (1992). Transfer van Logo-kennis en programmeervaardigheden. *Tijdschrift voor Onderwijsresearch*, 17(1), 40-54.

## **1991**

Verschaffel, L. (1991). Computers op school: een onderwijspsychologische analyse. *Impuls voor Onderwijsbegeleiding*, 21(2), 80-92.

## **1990**

Verschaffel, L., De Corte, E., & Pauwels, A. (1990). Het oplossen van vergelijkingsvraagstukken: een empirische toetsing van het model van Lewis en Mayer. *Tijdschrift voor Onderwijsresearch*, 15(3), 172-188.

## **1989**

De Corte, E., & Verschaffel, L. (1989). Leren programmeren: vehikel voor het verwerven van denkvaardigheden ? *Onze Alma Mater*, 44(1), 4-35.

## **1988**

Verschaffel, L. (1988). Enkele kanttekeningen bij de 'Proeve van een nationaal programma

voor het reken-wiskundeonderwijs op de basisschool'. *Panama-Post. Reken-wiskundeonderwijs: onderzoek, ontwikkeling, praktijk*, (6), 11-16.

#### 1987

De Corte, E., & Verschaffel, L. (1987). Cognitieve effecten van leren programmeren. *Nederlands Tijdschrift voor de Psychologie*, 42(7), 364-372.

Verschaffel, L. (1987). Semantische structuurkenmerken, cognitieve schemata en aanschouwelijke modellen bij aanvankelijke redactie-opgaven. *Tijdschrift voor Onderwijsresearch*, 12(3), 165-172.

#### 1986

Verschaffel, L. (1986). Computer-leren en denken. *Vorming: Vaktijdschrift voor Volwasseneneducatie en Sociaal-cultureel Werk*, 1(6), 25-32.

#### 1982

De Corte, E., & Verschaffel, L. (1982). Analyse en beïnvloeding van het probleemoplossend denken. Een bijdrage tot het ontwikkelend onderwijs. *Tijdschrift voor Orthopedagogiek*, 13, 449-464.

### A4 Papers published in journals not included in (A1), (A2) or (A3) (Chronological order)

Depaepe, F., Torbevens, J., Verschaffel, L., & Van Dooren, W. (2012). Wat is er dan zo rationeel aan rationale getallen? Of hoe voorkennis niet (altijd) helpt. *School- en Klaspraktijk*, 53(mrt-apr-me), 2-16.

De Bock, D., Van Dooren, W., & Verschaffel, L. (2012). Verführerische Linearität. Das Verhalten von Längen, Flächen und Volumen bei Vergrößerungs- und Verkleinerungsvorgängen. *Praxis der Mathematik in der Schule*, 54(44), 9-14.

De Bock, D., Deprez, J., Van Dooren, W., Roelens, M., & Verschaffel, L. (2010). Apprendre les mathématiques à partir d'exemples abstraits: les résultats de Kaminski sont-ils convaincants?. *Losanges*, 11, 46-56.

De Bock, D., Van Dooren, W., Janssens, D., & Verschaffel, L. (2004). Pourquoi la linéarité joue-t-elle des tours aux élèves? Une étude approfondie dans l'enseignement secondaire. *Mathématique et Pédagogie*, 146, 3-21.

De Bock, D., Van Dooren, W., & Verschaffel, L. (2004). Règles intuitives: Les erreurs des élèves enfin comprises? *Mathématique et Pédagogie*, 149, 3-22.

Van Dooren, W., De Bock, D., & Verschaffel, L. (2003). L'illusion de la linéarité parmi les élèves du secondaire: Extension au calcul des probabilités. *Mathématique et Pédagogie*, 143, 5-23.

### B1 Book author or co-author (limited to books published by a scientific editor; no syllabi or dissertations) (Chronological order)

#### 2012

Blanco, L., Gutiérrez, Á., Hoyles, C., Krummheuer, G., Llinares, S., da Ponte, J., et al. (2012). *Teoría, crítica y práctica de la educación matemática*. Barcelona: Editorial GRAO.

## **2007**

De Bock, D., Van Dooren, W., Janssens, D., & Verschaffel, L. (2007). *The illusion of linearity: From analysis to improvement*. New York: Springer.

## **2001**

Van Dooren, W., Verschaffel, L., & Onghena, P. (2001). *Rekenen of algebra? Gebruik van en houding tegenover rekenkundige en algebraïsche oplossingswijzen bij toekomstige leerkrachten*. Studia Paedagogica, 30. Leuven: Universitaire Pers.

## **2000**

Janssens, S., Verschaffel, L., De Corte, E., Elen, J., Lowyck, J., Vandenberghe, R., et al. (2000). *Didactiek in beweging*. Deurne: Wolters-Plantyn.

Verschaffel, L., Greer, B., & De Corte, E. (2000). *Making sense of word problems*. Lisse: Swets & Zeitlinger.

Järvelä (Eds.), *Motivation in learning contexts: theoretical advances and methodological implications* (pp. 149-167). Amsterdam: Elsevier.

Verschaffel, L., Greer, B., & De Corte, E. (2001). Everyday knowledge and mathematical modeling of school word problems. In K. Gravemeijer (Ed.), *Symbolizing, modeling and tool use in mathematics education* (pp. 257-276). Dordrecht, The Netherlands: Kluwer Academic.

## 2000

De Corte, E., Verschaffel, L., & Op 't Eynde, P. (2000). Self-regulation: a characteristic and a goal of mathematics education. In *Handbook of Self-Regulation* (pp. 687-726). London: Academic Press.

Vermunt, J., & Verschaffel, L. (2000). Process-oriented teaching. In *New Learning* (pp. 209-225). Dordrecht/Boston: Kluwer Academic.

## 1999

De Corte, E., Verschaffel, L., Lasure, S., Borghart, I., & Yoshida, H. (1999). Real-world knowledge and mathematical problem solving in upper primary school children. In J. Bliss, R. Säljö, & P. Light (Eds.), *Learning sites: Social and technological contexts for learning* (pp. 61-79). Oxford: Elsevier Science.

Verschaffel, L. (1999). Realistic mathematical modelling and problem solving in the upper elementary school: Analysis and improvement. In J. Hamers, L. Van Luit J., & B. Csapo (Eds.), *Teaching and learning thinking skills* (pp. 215-240). Lisse: Swets & Zeitlinger.

Verschaffel, L., De Corte, E., & Lasure, S. (1999). Children's conceptions about the role of real-world knowledge in mathematical modeling: Analysis and improvement. In W. Schnottz, S. Vosniadou, & M. Carretero (Eds.), *New perspectives on conceptual change* (pp. 175-189). Oxford: Elsevier Science.

## 1997

Verschaffel, L. (1997). Young children's strategy choices for solving elementary arithmetic word problems: the role of task and context variables. In M. Beishuizen, K. Gravemeijer & E. Van Lieshout (Eds.), *The role of contexts and models in the development of mathematical strategies and procedures* (pp. 113-126). Utrecht, The Netherlands: Center for Science and Mathematics Education, Freudenthal Institute, University of Utrecht.

Verschaffel, L., & De Corte, E. (1997). Word problems: a vehicle for promoting authentic mathematical understanding and problem solving in the primary school?. In T. Nunes & P. Bryant (Eds.), *Learning and teaching mathematics: An international perspective* (pp. 69-97). Hove, East Sussex, UK: Psychology Press.

## 1996

De Corte, E., Greer, B., & Verschaffel, L. (1996). Mathematics teaching and learning. In D. Berliner & R. Calfee (Eds.), *Handbook of educational psychology* (pp. 491-549). New York: MacMillan.

De Corte, E., Verschaffel, L., & Greer, B. (1996). Mathematics, Learning and Instruction of. In E. De Corte & F. Weinert (Eds.), *International encyclopedia of developmental and instructional psychology* (pp. 535-538). Oxford, UK: Elsevier Science.

De Corte, E., Verschaffel, L., & Lowyck, J. (1996). Computers, Media, and Learning. In E. De Corte & F. Weinert (Eds.), *International encyclopedia of developmental and instructional psychology* (pp. 695-700). Oxford, UK: Elsevier Science.

Verschaffel, L., & De Corte, E. (1996). Number and arithmetic. In A. Bishop, K. Clements, C. Keitel, J. Kilpatrick, & C. Laborde (Eds.), *International handbook of mathematics education* (pp. 99-137). Dordrecht, The Netherlands: Kluwer.

## 1994

De Corte, E., Verschaffel, L., & Greer, B. (1994). Mathematics, learning and instruction of. In T. Husén & T. Postlethwaite (Eds.), *The international encyclopedia of education* (pp. 3652-3655). Oxford: Pergamon Press.

De Corte, E., Verschaffel, L., & Lowyck, J. (1994). Computers and learning. In T. Husen & T. Postlethwaite (Eds.), *International Encyclopedia of Education* (pp. 1002-1007). Oxford, U.K.: Pergamon Press.

Verschaffel, L., De Corte, E., Gielen, I., & Struyf, E. (1994). Clever rearrangement strategies in children's mental arithmetic: a confrontation of eye-movement data and verbal protocols. In *Research on mathematics learning and instruction in (special) primary schools* (pp. 153-180). Doetinchem/Rapallo: Graviant.

## 1992

De Corte, E., Verschaffel, L., & Schrooten, H. (1992). Cognitive effects of learning to program in Logo: a one-year study with sixth graders. In E. De Corte, M. Linn, H. Mandl & L. Verschaffel (Eds.), *Computer-based learning environments and problem solving* (pp. 207-228). Berlin: Springer-Verlag.

## 1991

De Corte, E., & Verschaffel, L. (1991). Confronting computer models of children's word problem solving with empirical data. In P. Dann, S. Irvine, & J. Collis J. (Eds.), *Advances in computer-based human assessment* (pp. 205-218). Dordrecht, The Netherlands: Kluwer Academic Publishers.

De Corte, E., & Verschaffel, L. (1991). Some factors influencing the solution of addition and subtraction word problems. In K. Durkin & B. Shire (Eds.), *Language in mathematical education. Research and practice* (pp. 117-130). Buckingham, UK: Open University Press.

De Corte, E., Verschaffel, L., & Schrooten, H. (1991). Computer simulation as a tool in studying teachers' cognitive activities during error diagnosis in arithmetic. In P. Goodyear (Ed.), *Teaching knowledge and intelligent tutoring* (pp. 367-378). Norwood, New Jersey: Alex Publishing Corporation.

## 1990

Verschaffel, L., De Corte, E., Schrooten, H., Indemans, R., & Hoedemaekers, E. (1990). Cognitive effects of programming instruction in sixth graders. In G. Schuyten & M. Valcke (Eds.), *Teaching and learning in Logo-based environments* (pp. 121-134). Amsterdam/Springfield: VA: IOS.

## 1989

De Corte, E., & Verschaffel, L. (1989). Logo: a vehicle for thinking. In B. Greer & G. Mulhern. (Eds.), *New directions in mathematics education* (pp. 63-81). London/New York: Routledge.

De Corte, E., & Verschaffel, L. (1989). Teaching word problems in the primary school: what research has to say to the teacher. In B. Greer & G. Mulhern (Eds.), *New directions in mathematics education*. London/New York: Routledge.

De Corte, E., Verschaffel, L., & Schrooten, H. (1989). Computer simulation as a tool in studying teachers' cognitive activities during error diagnosis in arithmetic. In J. Lowyck & C. Clark (Eds.), *Teacher thinking and professional action* (pp. 193-206). Leuven: Leuven University Press.

## 1988

De Corte, E., & Verschaffel, L. (1988). Computer simulation as a tool in research on problem solving in subject-matter domains. In M. Rabinowitz (Ed.), *Computer simulations as research tools* (pp. 49-69). Amsterdam: Elsevier.

## 1987

De Corte, E., & Verschaffel, L. (1987). Children's problem-solving skills and processes with respect to elementary arithmetic word problems. In E. De Corte, H. Lodewijks, R. Parmentier & P. Span (Eds.), *Learning and instruction. European research in an international context. Volume I.* (pp. 297-308). Oxford / Leuven: Pergamon Press / Leuven University Press.

De Corte, E., & Verschaffel, L. (1987). Using retelling data to study young children's word-problem-solving. In D. Rogers & J. Sloboda (Eds.), *Cognitive processes in mathematics. (Keele Cognition Seminars)* (pp. 42-59). Clarendon Press: Oxford.

## **1984**

De Corte, E., & Verschaffel, L. (1984). The role of understanding in young children's problem-solving activity. In M. Hedegaard, P. Hakkarainen, & Y. Engeström (Eds.), *Learning and teaching on a scientific basis. Methodological and epistemological aspects of the Activity Theory of Learning and Teaching* (pp. 409-435). Aarhus: Psykologisk Institut, Aarhus Universitet.

**(Other book chapters = geen intern. wet. uitg.)**

## **2011**

Csíkos, C., & Verschaffel, L. (2011). Mathematical literacy and the application of mathematical knowledge. In B. Csapó & M. Szendrei (Eds.), *Framework for diagnostic assessment of mathematics* (pp. 57-93). Budapest: Nemzeti Tankönyvkiadó Zrt.

Verschaffel, L., Depaepe, F., De Corte, E., & Kelchtermans, G. (2011). De rol van ervaringskennis in het oplossen van wiskundige problemen: opvattingen, houdingen en onderwijspraktijken van leerkrachten. In R. van der Rijst, M. Voorkamp, I. Bork, B. Smit, H. Hulshof, & J. van Driel J. (Eds.), *Verhandelingen over de leraar. Ter gelegenheid van het afscheid van Prof. dr. Nico Verloop* (pp. 89-96). Leiden: ICLON, Universiteit Leiden.

Verschaffel, L., & Torbevens, J. (2011). Hoofd- versus cijferrekenen in Vlaanderen. Resultaten van een pilootstudie met de "choice/no-choice" methode. In M. van der Heijden, B. Koren, R. van der Mei, & C. van Vonderen (Eds.), *The traveling science man* (pp. 258-270). Amsterdam: Centrum Wiskunde & Informatica.

## **2008**

De Corte, E., & Verschaffel, L. (2008). Designing a powerful learning environment for mathematical problem solving: A Flemish perspective. In A. Kallioniemi, A. Toom, M. Ubani, H. Linnansaari & K. Kumpulainen (Eds.), *Ihmistä kasvattamassa: Koulutus – arvot – uudet avaukset/ Cultivating humanity: Education – values – new discoveries* (pp. 397-416). Turku, Finland: Tekijät & Suomen kasvatustieteellinen seura.

## **2007**

## 1992

Verschaffel, L., & De Corte, E. (1992). Leren oplossen van aanvankelijke rekenvraagstukken: Voorbeelden van recent onderwijspsychologisch onderzoek. In A. Ruijssenaars & J. Hamers (Eds.), *Rekenen als probleem: praktijk en onderzoek* (pp. 39-52). Leuven/Amersfoort: Acco.

## 1991

De Corte, E., Verschaffel, L., & Schrooten, H. (1991). Transfer van kennis en cognitieve vaardigheden. In H. Creemers, J. Lowyck, G. Meijnen, N. Lagerweij, & A. van der Leij (Eds.), *Onderwijskundig lexicon II* (pp. A 3300/1-19). Alphen aan de Rijn: Samsom.

Verschaffel, L. (1991). Het gebruik van de computer in het onderwijs aan kinderen met rekenmoeilijkheden. In L. Heylen & R. Elen (Eds.), *Omtrent logopedie 8* (pp. 223-242). Herentals: Vlaamse Vereniging Logopedisten.

Verschaffel, L., De Corte, E., Hoedemaekers, E., Schrooten, H., & Indemans, R. (1991). Il logo e lo sviluppo di abilità di soluzione dei problemi trasferibili. In Z. Dienes (Ed.), *Il piacere della matematica. Atti Meeting ISGML 1988* (pp. 315-333). Bologna: Cappelli.

## 1990

De Corte, E., Verschaffel, L., & Pauwels, A. (1990). Invloed van de semantische structuur van redactie-opgaven op de oogbewegingen van tweedeklassers. In M. Ippel & J. Elshout (Ed.), *Training van hogere-orde denkprocessen* (pp. 65-73). Amsterdam: Swets en Zeitlinger.

Verschaffel, L., & Gravemeijer, K. (1990). Contextrijk reken-/wiskundeonderwijs. In *Gids Basisonderwijs*. Brussel: Samsom.

## 1989

De Corte, E., Verschaffel, L., & Van Coillie, V. (1989). Invloed van getalskenmerken, semantische structuur en antwoordvorm op het oplossen van vraagstukken over vermenigvuldigen. In P. Span, E. De Corte, & B. Van Hout - Wolters (Eds.), *Onderwijsleerprocessen. Strategieën voor de verwerking van informatie* (pp. 183-190). Amsterdam: Swets & Zeitlinger.

Verschaffel, L. (1989). Intelligentie en leren op school. In G. De Corte (Ed.), *Onderwijsgids. Pedagogisch-didactisch praktijkboek voor het secundair en hoger onderwijs buiten de universiteit* (pp. 1-17). Deurne: Kluwer.

Verschaffel, L. (1989). Waarom kinderen zoveel moeite hebben met het oplossen van vraagstukken. In *Omtrent logopedie 5* (pp. 1-22). Herentals: Vlaamse Vereniging voor Logopedisten.

## 1988

De Corte, E., & Verschaffel, L. (1988). Oplossingsvaardigheden en denkprocessen van jonge kinderen bij aanvankelijke redactie-opgaven. In G. Kanselaar, J. van der Linden, & A. Pennings (Eds.), *Begaafdheid. Onderkennung en beïnvloeding* (pp.142-154). Amersfoort: Acco.

## 1987

De Corte, E., & Verschaffel, L. (1987). Probleemoplossen nader bekeken. In M. Depaepe & M.

D'hoker (Eds.), *Onderwijs, opvoeding en maatschappij in de 19de en 20ste eeuw. Liber Amicorum Prof. Dr. M. De Vroede* (pp. 255-266). Leuven: Acco.

De Corte, E., Verschaffel, L., Hoedemaekers, E., Schrooten, H., & Indemans, R. (1987). Verwerven van een programmeerstrategie in LOGO bij zesdeklassers. Project "Computers en Leren Denken". In V. Haars, A. Verhoeven, & M. de Vreese-Böck M. (Eds.), *Leren met Logo. Lezingen van de conferentie* (pp. 31-50). Nijmegen: Werkgroep "Leren met LOGO".

## 1986

De Corte, E., & Verschaffel, L. (1986). Cognitieve psychologie en wiskunde-onderwijs. In E. Feijs & E. De Moor (Eds.), *PANAMA- cursusboek 4. Nascholing een noodzaak* (pp. 178-191). Utrecht: Stichting Opleiding Leraren/ Vakgroep Onderzoek Wiskundeonderwijs en Onderwijs Computercentrum, R.U. Utrecht.

De Corte, E., & Verschaffel, L. (1986). Intelligenter: een kwestie van meer domeinspecifieke kennis of van betere denkmethoden? In P. Janssen, G. Vander Steene, & H. Vertommen (Eds.), *Intelligentie. Tussen meten en weten in theorie en praktijk. Festschrift voor Prof. dr. J. Stinissen* (pp. 66-88). Leuven: Universitaire Pers Leuven.

De Corte, E., & Verschaffel, L. (1986). Leren programmeren en leren denken. In G. Schuyten (Ed.), *Programmeeractiviteiten als leeromgeving voor 6- tot 14-jarigen* (pp. 53-70). Gent: Seminarie en Laboratorium voor Experimentele, Psychologische en Sociale Pedagogiek, Rijksuniversiteit Gent.

## 1985

De Corte, E., & Verschaffel, L. (1985). Computers en Leren Denken. In J. Heene & T. Plomp (Eds.), *Onderwijs en informatietechnologie. Verslag van een SVO-COD-Symposium* (pp. 195-206). 's Gravenhage: Stichting voor Onderzoek van het Onderwijs.

De Corte, E., & Verschaffel, L. (1985). Empirische toetsing van computermodellen over denkprocessen van jonge kinderen bij aanvankelijke redactieopgaven. In E. De Corte (Eds.), *Onderwijsleerprocessen. Bevindingen van Leuvens onderwijspsychologisch onderzoek*. Leuven / Amersfoort: Acco.

De Corte, E., & Verschaffel, L. (1985). Vraagstukkenonderwijs in de basisschool. In L. Boers (Ed.), *Gids voor het basisonderwijs* (pp. 7410/1-39). Brussel: Samsom.

## 1984

De Corte, E., & Verschaffel, L. (1984). Een analyse van de representatieprocessen van beginnende eersteklassertjes bij eenvoudige optel- en aftrekvraagstukjes. In P. Vos, K. Köster, & J. Kingma (Eds.), *Rekenen. Balans van standpunten in theorievorming en empirisch onderzoek*. Lisse: Swets & Zeitlinger.

## 1983

De Corte, E., & Verschaffel, L. (1983). Enkele praktijkrelevante implicaties uit psychologisch onderzoek met eenvoudige schoolvraagstukjes. In E. De Moor (Ed.), *PANAMA Cursusboek 1. Reken/wiskundeonderwijs voor het jonge kind (4-8 jaar)* (pp.29-36). Utrecht: Vakgroep Onderzoek Wiskundeonderwijs en Onderwijs Computercentrum, Rijksuniversiteit Utrecht.

De Corte, E., & Verschaffel, L. (1983). Enkele recente ontwikkelingen in de onderwijspsychologie in de Verenigde Staten. In H. Creemers (Ed.), *Losbladig Onderwijskundig Lexicon* (pp. 1-34). Alphen aan de Rijn: Samsom.

De Corte, E., & Verschaffel, L. (1983). Representatieproblemen van jonge kinderen bij aanvankelijke redactie-opgaven. In E. De Corte & P. Span (Eds.), *Studies over onderwijsleerprocessen. Bijdragen aan een symposium ter gelegenheid van tien jaar Belgisch-Nederlandse samenwerking* (pp. 33-58). Leuven: Helicon.

Tso (Ed.), *Proceedings of the 36th Conference of the International Group for the Psychology of Mathematics Education (PME)* (pp. 187-194). Taipei, Taiwan: PME.

Vanpaemel, G., De Bock, D., & Verschaffel, L. (2012). Defining modern mathematics: Willy

Servais (1913-1979) and mathematical curriculum reform in Belgium. In K. Bjarnadóttir, F., Furinghetti, J. Matos, & G. Schubring, G. (Eds.), "Dig where you stand". *Proceedings of the conference on the History of Mathematics Education* (pp. 419-439). Lisbon, Portugal: Universidade Nova.

## 2011

Borromeo, E., Elen, J., & Verschaffel, L. (2011). Relationships between mathematics teachers' acceptance of computer supported-open learning environments and their beliefs: a survey study in Italian lower secondary schools. In L. Gómez Chova , M. Belenguer, D., & A. López Martínez (Eds.), *EDULEARN11. Proceedings of the International Conference on Education and New Learning Technology* (pp. 262-271). Valencia, Spain: International Association of Technology, Education and Development (IATED).

Lem, S., Onghena, P., Verschaffel, L., & Van Dooren, W. (2011). Coordinating between histograms and box plots. In *Proceedings of the IASE Satellite Conference 2011*. Dublin, Ireland.

## 2010

De Bock, D., Deprez, J., Roelens, M., & Verschaffel, L. (2010, July). Do abstract examples really have advantages in learning math? In M. Pinto & T. Kawasaki, T. (Eds.), *Proceedings of the 34th Conference of the International Group for the Psychology in Mathematics Education, Belo Horizonte, Brazil* (pp. 305-312). Belo Horizonte, Brazil: PME.

De Bock, D., Deprez, J., Van Dooren, W., Roelens, M., & Verschaffel, L. (2010). Abstract or concrete examples in learning math? A replication and elaboration of Kaminski et al.'s study. In M. Pinto & T. Kawasaki (Eds.), *Proceedings of the 34th Conference of the International Group for the Psychology in Mathematics Education: mathematics in different settings: Vol. 2* (pp. 297-304). Belo Horizonte, Brazil: PME.

De Corte, E., Depaepe, F., & Verschaffel, L. (2010). Fostering self-regulation skills in mathematics. In M. Pedrosa-de-Jesus, C. Evans, Z. Charlesworth, & E. Cools (Eds.), *EL SIN XV. Exploring styles to enhance learning and teaching in diverse contexts. Proceedings of the 15th Annual Conference of the European Learning Styles Information Network* (pp. 133-139). Aveiro, Portugal: Universidade de Aveiro.

Fernández, C., Llinares, S., Van Dooren, W., De Bock, D., & Verschaffel, L. (2010). How do proportional and additive methods develop along primary and secondary school? In M. Pinto & T. Kawasaki, T. (Eds.), *Proceedings of the 34th Conference of the International Group for the Psychology in Mathematics Education, Belo Horizonte, Brazil* (pp. 353-360). Belo Horizonte, Brazil: PME.

## 2009

De Corte, E., Janssen, R., & Verschaffel, L. (2009). Large-scale assessment as a tool for monitoring learning and teaching: the case of Flanders, Belgium. In L. Paditz & R. Rogerson (Eds.), *Models in developing mathematics education. Proceedings of the 10th International Conference of The Mathematics Education into the 21st Century Project* (pp. 134-138). Dresden: Dresden University of Applied Sciences.

Fernández, C., Llinares, S., Van Dooren, W., De Bock, D., & Verschaffel, L. (2009, July). Effect of the number structure and the quantity nature on secondary school students' proportional reasoning. In M. Tzekaki, M. Kaldrimidou & H. Sakonidis (Eds.), *Proceedings of the 33rd Conference of the International Group for the Psychology of Mathematics Education* (pp. 25-32). Thessaloniki, Greece.

Gillard, E., Van Dooren, W., Schaeken, W., & Verschaffel, L. (2009). Processing time evidence for a default-interventionist model of probability judgments. In *Proceedings of the Annual Conference of the Cognitive Science Society* (pp. 1792-1797). Lawrence Erlbaum Associates.

Van Dooren, W., De Bock, D., Gillard, E., & Verschaffel, L. (2009). Add? Or Multiply? A study on the development of primary school students' proportional reasoning skills. In M. Tzekaki, M. Kaldrimidou & H. Sakonidis (Eds.), *Proceedings of the 33rd Conference of the International Group for the Psychology of Mathematics Education* (pp. 281-288). Thessaloniki, Greece.

## 2008

Acevedo Nistal, A., Clarebout, G., Elen, J., Van Dooren, W., & Verschaffel, L. (2008). A review on flexible representational choice: conceptualisation, relevant variables, and implications for instructional design and research. In A. Maes & S. Ainsworth (Eds.), *Exploiting the opportunities: Learning with textual, graphical, and multimodal representations* (pp. 17-20). Tilburg, The Netherlands: University of Tilburg.

Van Dooren, W., De Bock, D., Vleugels, K., & Verschaffel, L. (2008). Pupils' reasoning on proportionality: Solving versus classifying missing-value problems. In O. Figueras, J. L. Cortina, S. Alatorre, T. Rojano & A. Sepúlveda (Eds.), *Proceedings of the 32nd Conference of the International Group for the Psychology of Mathematics education* (pp. 369-376). Morelia, Mexico: Universidad Michoacana de San Nicolás de Hidalgo.

Van Dooren, W., De Bock, D., Evers, M., & Verschaffel, L. (2008). The role of number structures on pupils' over-use of linearity in missing-value problems. In D. De Bock, B. D. Søndergaard, B. G. Alfonso, & C. C. L. Cheng (Eds.), *Proceedings of ICMI-11 – Topic Study Group 10: Research and Development in the Teaching and Learning of Number Systems and Arithmetic* (pp. 57-64). Monterrey, Mexico.

## 2007

De Corte, E., Depaepe, F., & Verschaffel, L. (2007). Investigating social and individual aspects in teacher's approaches to mathematical problem solving. In D. K. Pugalee, A. Rogerson & A. Schinck (Eds.), *Proceedings of the Ninth International Conference, Mathematics Education in a Global Community* (pp. 144-148). Charlotte, USA: The University of North Carolina.

Foustana, A., Luwel, K., & Verschaffel, L. (2007). Effects of feedback on the strategic competence of gifted children. In S. Vosniadou, D. Kayser, & A. Protopapas (Eds.), *Proceedings of EuroCogSci 07, The European Cognitive Science Conference* (pp. 65-70). Hove: Lawrence Erlbaum Associates.

Gillard, E., Van Dooren, W., Schaeken, W., & Verschaffel, L. (2007). Proportional reasoning as a heuristic based process: In search for evidence in students' reaction times. In S. Vosniadou, D. Kayser, & A. Protopapas (Eds.), *Proceedings of the Second European Cognitive Science Conference* (pp. 553-558). Hove: Lawrence Erlbaum Associates.

Luwel, K., Camos, V., & Verschaffel, L. (2007). The role of working memory in the use of numerosity judgement strategies. In S. Vosniadou, D. Kayser, & A. Protopapas (Eds.), *Proceedings of EuroCogSci 07, The European cognitive science conference* (pp. 469-474). Hove: Lawrence Erlbaum Associates.

Vanhoof, S., Castro Sotos, A., Onghena, P., & Verschaffel, L. (2007). Students' reasoning about sampling distributions before and after the Sampling Distribution Activity. In I. Gomes, J. Pinto Martines & J. Silva (Eds.), *Bulletin of the ISI. Proceedings of the 56th session of ISI*, 62, Session of the International Statistical Institute (pp. 4697-4700). Lisboa, Portugal.

## 2006

Depaepe, F., De Corte, E., & Verschaffel, L. (2006). Investigating social and individual aspects in teacher's approaches to problem solving. In J. Novotna, H. Moraova, M. Kratka, & N. Stehlíkova (Eds.), *Proceedings of the 30th Conference of the International group for the psychology of mathematics education* (pp. 417-424). Prague: Charles University.

Depaepe, F., De Corte, E., & Verschaffel, L. (2006). Investigating the social and individual dimensions of mathematics learning in sixth-grade classrooms. In G. Clarebout & J. Elen (Eds.), *Avoiding simplicity, confronting complexity. Advances in studying and designing*

(computer-based) powerful learning environments. *Proceedings of the Joint meeting of the Special Interest Group 'Instructional Design' and 'Learning and Instruction with Computers'* (pp. 77-86). Rotterdam: Sense Publishers.

Van Dooren, W., De Bock, D., Evers, M., & Verschaffel, L. (2006). Pupils' over-use of proportionality on missing-value problems: How numbers may change solutions. In J. Novotná, H. Moraová, M. Krátká, & N. Stehlíková (Eds.), *Proceedings of the 30th Conference of the International Group for the Psychology of Mathematics Education* (pp. 305-312). Prague, Czech Republic: Charles University Prague.

Van Dooren, W., De Bock, D., & Verschaffel, L. (2006). The linear imperative: Searching for the roots and the impact of the over-use of proportionality (Contribution to the Research forum on 'Mathematics learning from a conceptual change point of view: Theoretical issues and educational implications'). In J. Novotná, H. Moraová, M. Krátká, & N. Stehlíková (Eds.), *Proceedings of the 30th Conference of the International Group for the Psychology of Mathematics Education* (pp. 165-168). Prague, Czech Republic: Charles University Prague.

Vanhoof, S., Castro Sotos, A., Onghena, P., & Verschaffel, L. (2006). Attitudes toward statistics and their relationship with short- and long-term exam results. In *MSOR connections, 7(2). The International Conference on Teaching Statistics* (pp. 43-44). Brazil: Salvador da Bahia.

## 2005

De Bock, D., Van Dooren, W., & Verschaffel, L. (2005). Not everything is proportional: Task design and small-scale experiment. In H. L. Chick & J. L. Vincent (Eds.), *Proceedings of the 29th Conference of the International Group for the Psychology of Mathematics Education. Vol. 1* (pp. 97-102). Melbourne, Australia: University of Melbourne.

De Corte, E., Depaepe, F., Op 't Eynde, P., & Verschaffel, L. (2005). Comparing mathematics education traditions in four European countries: The case of the teaching of percentages in the primary school. In A. Rogerson (Ed.), *Proceedings of the Eighth International Conference of the Mathematics Education into the 21st Century Project: "Reform, revolution, and paradigm shifts in mathematics education"* (pp. 1-11). Johor Bahru, Malaysia: The Mathematics Education into the 21st Century Project.

Van Dooren, W., De Bock, D., Janssens, D., & Verschaffel, L. (2005). Students' overreliance on linearity: An effect of school-like word problems? In H. L. Chick & J. L. Vincent (Eds.), *Proceedings of the 29th Conference of the International Group for the Psychology of Mathematics Education. Vol. 4* (pp. 265-272). Melbourne, Australia: University of Melbourne.

## 2004

Canters, R., Op 't Eynde, P., Verschaffel, L., Elen, J., & Janssens, S. (2004). Mile-Flanders: A video-based learning environment as a powerful tool for learner-oriented construction of expertise by pre-service primary school teachers. In L. Mason, S. Andreuxza, B. Arfè, & L. Del Favero (Eds.), *Abstracts of the 10th European Conference For Research on Learning and Instruction, 10th European Conference for Research on Learning and Instruction (EARLI)* (pp. 401-401). Padova, Italy: CLEUP.

De Bock, D., Van Dooren, W., Hessels, A., Janssens, D., & Verschaffel, L. (2004). Secondary school students' improper proportional reasoning in geometry problems: from analysis to improvement. In H. Henn & W. Blum (Eds.), *ICMI study 14: Applications and modelling in mathematics education - Pre-conference volume* (pp. 71-76). Dortmund: University of Dortmund.

Torbeyns, J., Verschaffel, L., & Ghesquière, P. (2004). Children's strategies for doing simple addition in an instructional environment that favors strategy flexibility. In *Selected papers for the Thematic Study Group on Research and development in the teaching and learning of number and arithmetic* (pp. 323-326). Roskilde: IMFUFA, Department of Science, Systems and

Models, Roskilde University.

Torbeyns, J., Verschaffel, L., & Ghesquière, P. (2004). Efficiency and adaptiveness of multiple school-taught strategies in the domain of simple addition. In M. Hoines, & A. Fuglestad (Eds.), *Proceedings of the 28th Conference of the International Group for the psychology of mathematics education* (pp. 321-328). Bergen, Norway: Bergen University.

Van Dooren, W., De Bock, D., Hessels, A., Janssens, D., & Verschaffel, L. (2004). Students' overreliance on proportionality: evidence from primary school pupils solving elementary arithmetic word problems. In M. Hoines, & A. Fuglestad (Eds.), *Proceedings of the 28th Conference of the International Group for the psychology of mathematics education* (pp. 385-392). Bergen, Norway: Bergen University.

Van Dooren, W., De Bock, D., Hessels, A., Janssens, D., & Verschaffel, L. (2004). *Students' overreliance on proportionality: evidence from primary school students solving elementary arithmetic problems*. In H. Henn & W. Blum (Eds.), *ICMI study 14: Applications and modelling in mathematics education - Pre-conference volume* (pp. 291-296). Dortmund: University of Dortmund.

Van Dooren, W., De Bock, D., Hessels, A., Janssens, D., & Verschaffel, L. (2004). Studying and remedying secondary school student's modelling skills: errors and difficulties in solving non-linear geometry problems. In D. De Bock, M. Isoda, J. Garcia Curz, & E. Simmt (Eds.), *Proceedings of ICME-10 - Topic study group 2: New developments and trends in secondary mathematics education* (pp. 79-85). Copenhagen, Denmark: ICME.

Verschaffel, L. (2004). Real-world knowledge and the modeling of school word problems. In H. Fujita, Y. Hashimoto, B. Hodgson, P. Lee, S. Lerman, & T. Sawada (Eds.), *Proceedings of the Ninth International Congress on Mathematical Education* (pp. 205-206). Dordrecht, The Netherlands: Kluwer.

## 2003

Van Dooren, W., De Bock, D., Hessels, A., Janssens, D., & Verschaffel, L. (2003). Remediating secondary school students' illusion of linearity: a teaching experiment. In N. Pateman, B. Dougherty, & J. Zilliox (Eds.), *Proceedings of the 27th Conference of the International group for the Psychology of Mathematics Education* (pp. 331-338). Hawai: College of Education.

Van Dooren, W., De Bock, D., De Bolle, E., Janssens, D., & Verschaffel, L. (2003). Secondary school students' improper proportional reasoning: the role of direct versus indirect measures. In N. Pateman, B. Dougherty, & J. Zilliox (Eds.), *Proceedings of the 27th Conference of the International group for the Psychology of Mathematics Education* (pp. 293-300). Hawai: College of Education.

## 2002

Van Dooren, W., De Bock, D., Depaepe, F., Janssens, D., & Verschaffel, L. (2002). Secondary school students' illusion of linearity: expanding the evidence towards probabilistic reasoning. In A. Cockburn & E. Nardi (Eds.), *Proceedings of the 26th Conference of the International Group for the Psychology of Mathematics Education* (pp. 305-312). Norwich: University of East Anglia.

Verschaffel, L. (2002). Taking the modelling perspective seriously at the elementary school level: promises and pitfalls. In A. Cockburn & E. Nardi (Eds.), *Proceedings of the 26th Conference of the International Group for the Psychology of Mathematics Education* (pp. 64-79). Norwich: University of East Anglia.

## 2001

De Bock, D., Verschaffel, L., Weyers, D. (2001). Do intuitive rules have predictive power? A replication and elaboration study on the impact of More A - More B and Same A - Same B. In M. Van den Heuvel – Panhuizen (Ed.), *Proceedings of the 25th Conference of the International Group for the Psychology of Mathematics Education* (pp. 321-328). Utrecht, The Netherlands: Freudenthal Institute, Utrecht University

Luwel, K., Verschaffel, L., Onghena, P., & De Corte, E. (2001). Children's strategies for numerosity judgement in square grids: the relationship between process and product data. In M. Van den Heuvel – Panhuizen (Ed.), *Proceedings of the 25th Conference of the International Group for the Psychology of Mathematics Education* (pp. 329-334). Utrecht, The Netherlands: Freudenthal Institute, Utrecht University.

Op 't Eynde, P., De Corte, E., & Verschaffel, L. (2001). Problem solving in the mathematical classroom: a socio-constructivist account of the role of students' emotion. In M. Van den Heuvel – Panhuizen (Ed.), *Proceedings of the 25th Conference of the International Group for the Psychology of Mathematics Education* (pp. 25-32). Utrecht, The Netherlands: Freudenthal Institute, Utrecht University.

Torbeyns, J., Verschaffel, L., Ghesquière, P. (2001). Investigating young children's strategy use and task performance in the domain of simple addition, using the Choice-/no-choice method. In M. Van den Heuvel – Panhuizen (Ed.), *Proceedings of the 25th Conference of the International Group for the Psychology of Mathematics Education* (pp. 273-278). Utrecht, The Netherlands: Freudenthal Institute, Utrecht University.

Van Dooren, W., Verschaffel, L., & Onghena, P. (2001). Arithmetic or algebra? Pre-service teachers' preferential strategies for solving arithmetic and algebra word problems. In M. Van den Heuvel – Panhuizen (Ed.), *Proceedings of the 25th Conference of the International Group for the Psychology of Mathematics Education* (pp. 359-366). Utrecht, The Netherlands: Freudenthal Institute, Utrecht University.

Van Dooren, W., Verschaffel, L., Janssens, D., & De Bock, D. (2001). Secondary school pupils' improper proportional reasoning: an in-depth study of the nature and persistence of pupils' errors. In M. Van den Heuvel – Panhuizen (Ed.), *Proceedings of the 25th Conference of the International Group for the Psychology of Mathematics Education* (pp. 313-320). Utrecht, The Netherlands: Freudenthal Institute, Utrecht University.

Verschaffel, L. (2001). Design and use of substantial learning environments in MATHE 2000. In M. Van den Heuvel – Panhuizen (Ed.), *Proceedings of the 25th Conference of the International Group for the Psychology of Mathematics Education* (pp. 218-219). Utrecht, The Netherlands: Freudenthal Institute, Utrecht University.

## 2000

De Bock, D., Verschaffel, L., Janssens, D., & Claes, K. (2000). Involving pupils in an authentic context: does it help them to overcome the "illusion of linearity"? In T. Nakahara & M. Koyama (Eds.), *Proceedings of the 24th Annual Conference of the International Group for the Psychology of Mathematics Education* (pp. 233-240). Hiroshima, Japan: Hiroshima University; Department of Education in Technology and Science.

De Corte, E., Verschaffel, L., & Greer, B. (2000). Connecting mathematics problem solving to the real world. In A. Rogerson (Ed.), *Proceedings of the International Conference on Mathematics Education into the 21st Century: Mathematics for living* (pp. 66-73). Amman, Jordan: The National Center for Human Resource Development.

De Corte, E., Verschaffel, L., Lowyck, J., Dhert, S., & Vandeput, L. (2000). Computer-supported collaborative learning of mathematical problem solving and problem posing. In D. Benzie & D. Passey (Eds.), *Proceedings of Conference on Educational Uses of Information and Communication Technologies*. Beijing, China: Publishing House of Electronic Industry.

De Corte, E., Verschaffel, L., Lowyck, J., Dhert, S., & Vandeput, L. (2000). Collaborative learning of mathematics problem solving and problem posing supported by 'Web Knowledge Forum': a design experiment. In *Proceedings of the V Congreso Iberoamericano de Informatica Educativa. RIBIE 2000 Congreso Iberoamericano de Informatica Educativa. RIBIE 2000*. Santiago, Chile: Universidad de Chile.

## 1999

De Bock, D., Verschaffel, L., Janssens, D., & Rommelaere, R. (1999). What causes improper

proportional reasoning: The problem or the problem formulation? In O. Zaslavsky (Ed.), *Proceedings of the 23rd Conference of the International Group for the Psychology of Mathematics Education* (pp. 241-248). Haifa, Israel: Technion B Israel Institute of Technology; Department of Education in Technology and Science.

De Corte, E., & Verschaffel, L. (1999). From interactive small group and classroom learning toward networking minds in a technology-supported collaborative mathematics learning environment. In A. Rogerson (Ed.), *Proceedings of the International Conference on Mathematics Education into the 21st Century: Societal challenges, issues, and approaches* (pp. 147-159). Cairo, Egypt: Third World Forum - Project Egypt 2020.

De Corte, E., Verschaffel, L., Lowyck, J., Dhert, S., & Vandeput, L. (1999). Networking minds in a collaborative learning environment for mathematics problem solving and problem posing using 'Knowledge Forum'. In K. Cox, B. Gorayska, & J. Marsh (Eds.), *Networking minds: Proceedings of the Third International Cognitive Technology Conference*. (pp. 187-204). East Lansing, MI: Media Interface & Network Design Lab, Michigan State University.

Op 't Eynde P, De Corte, E., & Verschaffel, L. (1999). Balancing between cognition and affect: Students' mathematic-related beliefs and their emotions during problem solving. In E. Pehkonen & G. Torner (Eds.), *Mathematical beliefs and their impact on teaching and learning of mathematics. Proceedings of the workshop in Oberwolfach* (pp. 97-105). Duisburg, Germany: Gerhard Mercator Universität Duisburg, Fachbereichs Mathematik.

Verschaffel, L., Greer, B., & De Corte, E. (1999). Pupils' beliefs about the role of real-world knowledge in mathematical modelling of school arithmetic word problems. In E. Pehkonen & G. Torner (Eds.), *Mathematical beliefs and their impact on teaching and learning of mathematics. Proceedings of the workshop in Oberwolfach* (pp. 138-145). Duisburg, Germany: Gerhard Mercator Universität Duisburg, Fachbereichs Mathematik.

## 1996

De Bock, D., Verschaffel, L., & Janssens, D. (1996). The illusion of linearity: a persistent obstacle in pupils' thinking about problems involving length and area of similar plane figures. In L. Puig & A. Gutiérrez (Eds.), *Proceedings of the 20th Conference of the International Group for the Psychology of Mathematics Education* (pp. 273-280). Valencia, Spain: Universitat de València, Dept. de Didàctica de la Matemàtica.

## 1995

Verschaffel, L., & De Corte, E. (1995). Teaching realistic mathematical modeling in the elementary school. A teaching experiment with fifth graders. In L. Meira & D. Carraher (Eds.), *Proceedings of the 19th PME Conference* (pp. 105-112). Recife, Brazil: Universidade Federal de Pernambuco, Graduate Program in Cognitive Psychology.

## 1994

De Corte, E., & Verschaffel, L. (1994). Using student-generated word problems to further unravel the difficulty of multiplicative structures. In *Proceedings of the Eighteenth International Conference for the Psychology of Mathematics Education* (256-263). Lisbon, Portugal: Program Committee of the 18t PME Conference.

## 1993

Olivié, H., Liekens, C., De Corte, E., & Verschaffel, L. (1993). A logo based instruction system for the development of general thinking skills. In *Proceedings of the 7th International PEG Conference. International PEG Conference* (pp. 750-760). Edinburgh, Scotland: Moray House Institute of Education.

## 1992

De Corte, E., Verschaffel, L., Schrooten, H., Olivié, H., & Vansina, A. (1992). A LOGO-based tool-kit and computer coach to support the development of constructivist learning environments

and problem solving. In *Designing Environments for Constructive Learning* (pp. 109-124). Berlin/Heidelberg: Springer.

### 1991

De Corte, E., Verschaffel, L., Schrooten, H., Olivié, H., & Vansina, A. (1991). A LOGO based tool-kit and computer coach supporting the development of general thinking skills. In E. Calabrese (Ed.), *Proceedings of the Third European LOGO Conference* (pp. 433-450). Parma, Italy: Associazione Scuola e Informatica.

### 1989

Verschaffel, L., De Corte, E., & Pauwels, A. (1989). Children's eye- fixations while solving multiplication word problems. In R. Schmid & D. Zambarbierie (Eds.), *Proceedings of the fifth European Conference on Eye Movements* (pp. 202-204). Pavia: University of Pavia.

Verschaffel, L., De Corte, E., & Pauwels, A. (1989). Does the semantic structure of word problems affect second graders' eye-movements? In G. Vergnaud, J. Rogalski, & M. Artigue (Eds.), *Actes de la 13ième Conférence Internationale Psychology of Mathematics Education* (pp. 228-235). Paris: G.R. Didactique CNRS - Paris V, Laboratoire PSYDEE.

### 1988

Verschaffel, L., De Corte, E., & Van Coillie, V. (1988). Specifying the multiplier effect on children's solutions of simple multiplication word problems. In *Proceedings of the 12th International Conference of the International Group for the Psychology of Mathematics Education* (pp. 617-624). Budapest, Hungaria: Hungarian National Centre for Instructional Technology.

### 1987

De Corte, E., & Verschaffel, L. (1987). First graders' eye movements during elementary addition and subtraction word problem solving. In G. Luer & U. Lass (Eds.), *Fourth European Conference on Eye Movements. Vol. 1: Proceedings* (pp. 148-150). Toronto / Göttingen: C.J. Hogrefe, Inc.

De Corte, E., & Verschaffel, L. (1987). Logo: Un medio para pensar? In *Acta IV Seminario Logo* (pp. 17-40). Barcelona: Universitat Autònoma de Barcelona, Bellaterra.

De Corte, E., & Verschaffel, L. (1987). The effects of semantic and non-semantic factors on young children's solutions of elementary addition and subtraction word problems. In J. Bergeron, N. Herscovics, & C. Kieran (Eds.), *Proceedings of the Eleventh Conference of the International Group for the Psychology of Mathematics Education* (pp. 375-381). Montreal: University of Montreal.

De Corte, E., Verschaffel, L., & Schrooten, H. (1987). Using a computer program for training the skill of diagnosing errors in addition and subtraction. In J. Moonen & T. Plomp (Eds.), *EURIT 86. Developments in educational software and courseware. Proceedings of the First European Conference on Education and Information Technology*, (pp. 41-47). Oxford: Pergamon Press.

### 1986

De Corte, E., & Verschaffel, L. (1986). Eye-movements of first graders during word problem solving. In *Tenth International Conference on Psychology of Mathematics Education* (pp. 421-426), International Conference on Psychology of Mathematics Education, London, England.

De Corte, E., & Verschaffel, L. (1986). The development of programming ability and thinking skills in elementary school children. In C. Hoyles, R. Noss, & R. Sutherland (Eds.), *Proceedings of the Second International Conference for Logo and Mathematics Education*. (pp. 104-112). London: University of London, Institute of Education, Department of Mathematics, Statistics and Computing.

## 1985

De Corte, E., & Verschaffel, L. (1985). Arithmetic problem-solving in elementary school children: some findings of a Belgian research project. In A. Bell, B. Low, & J. Kilpatrick (Eds.), *Theory, research and practice in mathematical education. Proceedings of the Fifth International Congress on Mathematical Education, Adelaide, South- Australia.* (pp. 143-151). Nottingham, United Kingdom: Shell Centre for Mathematical Education, University of Nottingham.

De Corte, E., & Verschaffel, L. (1985). Working with simple word problems in early mathematics instruction. In L. Streefland (Ed.), *Proceedings of the Ninth International Conference for the Psychology of Mathematics Education. Vol. 1. Individual contributions* (pp. 304-309). Utrecht, The Netherlands: Research Group on Mathematics Education and Educational Computer Center, Subfaculty of Mathematics, University of Utrecht.

De Corte, E., & Verschaffel, L. (1985). Writing number sentences to represent addition and subtraction word problems. In S. Damarin & M. Shelton (Eds.), *Proceedings of the Seventh Annual Meeting of the North American Chapter of the International Group for the Psychology of Mathematics Education* (pp. 50-56). Columbus, Ohio: Department of Psychology, Ohio State University.

De Corte, E., Verschaffel, L., Janssens, V., & Joilett, L. (1985). Teaching word problems in the first grade: a confrontation of educational practice with results of recent research. In T. Romberg (Ed.), *Using research in the professional life of mathematics teachers. International Congress on Mathematical Education* (pp. 186-195). Madison, WI.: Center for Education Research, University of Wisconsin.

## 1984

De Corte, E., & Verschaffel, L. (1984). First graders' solution strategies of addition and subtraction word problems. In J. Moser (Ed.), *Proceedings of the sixth annual meeting PME-NA - North American Chapter of the International Group for the Psychology of Mathematics Education* (pp. 15-20). Madison, Wisconsin: Wisconsin Center for Education Research, University of Wisconsin.

## 1982

De Corte, E., Verschaffel, L., & Verschueren, J. (1982). First graders' solution processes in elementary word problems. In *Proceedings of the Sixth International Conference for the Psychology of Mathematical Education* (pp. 91-96). Wilrijk: Universitaire Instelling Antwerpen.
