

John David Woods - Bibliography

- 1 1963a Vibrating capillary droplet generator
J.Sci.Instruments **40**, 247-249 (with B.J.Mason & O.Jayarathne)
- 2 1964a Experimental determination of collection efficiencies for small droplets in air. *Q.J.roy.Met.Soc.* **90**, 373 (with B.J.Mason)
- 3 1965a The wake capture of water droplets in air
Q.J.Roy Met.Soc. **91**, 35 (with B.J.Mason)
- 4 1965b Effect of electric charges upon collision between equal-sized water drops in air *Q.J.Roy.Met.Soc* **91**, 353-355
- 5 1966 Observations of the behaviour of the thermocline and transient stratifications in the sea made visible by dye markers *Underwater Association report* **1**, 31 (with G.G.Fosberry)
- 6 1967a The structure of the thermocline
Underwater association report **2**, 5 (with G.G.Fosberry)
- 7 1967b Micro-turbulence on the surface of sheltered water
Weather **22** 510
- 8 1968a An investigation of some physical processes associated with the vertical flow of heat through the upper ocean *Met Mag* **97**, 65
- 9 1968b On the formation of certain billow clouds
Q.J.Roy.Meteorological Society **94**, 209
- 10 1968c CAT under water *Weather* **23**, 6
- 11* 1968d Wave-induced shear instability in the summer thermocline
J.Fluid Mech. **32**, 791
- 12 1968e Micro-oceanographical studies in the summer thermocline around Malta *Met Research Committee paper* **241**, 32pp
- 13 1969a Diurnal behaviour in the summer thermocline off Malta
Deutsch hydrographisches Z. **21**, 106
- 14 1969b The slippery seas of Acapulco
New scientist 134-6 (with D.Houghton)
- 15 1969c Note of the use of automatic flash in underwater photography
Underwater association report **3**, 41
- 16 1969d On designing a probe to measure ocean microstructure
Underwater J. **1**, 6
- 17 1969e On Richardson's number as a criterion for laminar-turbulent-laminar transition in the ocean and atmosphere *Radio Science* **4**, 1289
- 18 1969f Fossil turbulence *Radio Science* **4**, 1365
- 19 1969g Vertical mixing processes in the ocean
In *Variability in the North Atlantic*, ICES

- 20** 1969h An introduction to turbulence in stratified flow
Proc first Liège Ocean Hydrodynamics Colloquium
- 21** 1970a Measurement of thermocline fronts from the air
Underwater J. **2**, 90 (with N.R.Watson)
- 22** 1970b Temperature microstructure in a freshwater thermocline *Nature* **226**,
832 (with J.Simpson)
- 23** 1970c Coalescence in a turbulent cloud
Met Research Committee **280**, 38pp
- 24** 1970d Billow turbulence and ocean microstructure
Proc Joint Oceanographic Assembly, Tokyo ICSU
- 25** 1971a Thermocline fronts as a factor in sonar range prediction *Unpublished
note (classified)*
- 26** 1971b *Underwater Science* Oxford University Press
(Edited with J.N.Lythgoe)
- 27** 1971b Micro-oceanography
Ch. 9 in *Underwater Science*, Oxford University Press
- 28** 1971c Billow turbulence and ocean microstructure
Deep-Sea Research **19**, 87-121 (with R.L.Wiley)
- 29*** 1971d Coalescence in a turbulent cloud
Quart.J.Roy.Met.Soc. **98**, 135-149 (with P.Goldsmith)
- 30** 1972 The structure of fronts in the seasonal thermocline
Saclantcen, La Spezia (classified)
- 31** 1973a Coalescence in a weakly turbulent cloud
Q.J.Roy.Met.Soc **99**, 758-763 (with H.Tennekes)
- 32** 1973b Space-time characteristics of turbulence in the seasonal thermocline
Mem.Soc Roy Sci Liège 6 Ser. **6** 109-130
- 33** 1973c Remote sensing of the ocean *Boundary-Layer Meteorology* **5** 201-209
(with W.Munk)
- 34** 1974a The local distribution in Fourier space-time of variability associated
with turbulence in the seasonal thermocline *Mem.Soc.Roy.Sci.Liège*, **7**
(6), 171-189
- 35** 1974b Diffusion due to vertical circulation at fronts in the seasonal
thermocline *La Houille Blanche* **7**, 589-598
- 36** 1976a Geophysical turbulence and buoyant flows
In *Turbulence* (ed by P.Bradshaw) pp 171-192 Springer-Verlag, Berlin
(with P.Bradshaw)
- 37** 1976b *Underwater Research* Academic Press
(Edited with E.Drew & J.N.Lythgoe)
- 38** 1977a Turbulence as a factor in sound scattering
Oceanic sound scattering prediction Plenum 129-145

- 39 1977b Parameterization of unresolved motions
In *Modelling and prediction of the upper layers of the ocean*
(Ed: E.B.Kraus) Pergamon, Oxford
- 40 1977c Information theory related to experiments in the upper ocean
In *Modelling and prediction of the upper layers of the ocean* E.Kraus
(ed) Pergamon, Oxford
- 41 1977d Exploring the ocean's fourth dimension
Inaugural lecture, University of Southampton
- 42 1977e Vertical circulation at fronts in the upper ocean
Deep-sea research, **25** (suppl.), 253-275 (with M.Briscoe &
R.L.Wiley)
